A FRANK-FACED DRUMMER

Couldn't begin to credit the interest in your wares by a personal canvas among the farmers that a clearly worded advertisement in the WEEKLY SENTINEL would.

ESTABLISHED 1833. THURSDAY, AUG. 6, 1896. PRICE TWO CENTS.

GEO. DeWALD & CO.

"The Nearer the Bone, the Sweeter the Meat."

It's an old and homely adage and finds an application here.

The maker of merchandise has reached the end of his Summer "tether."

His season is about over; yours has just begun.

He's anxious to sell what is left of his made up product at almost any reasonable sacrifice.

We're watching your interests in this matter, and as a result have made purchases that will surprise you by their price cheapness.

Makers of Shirt Waists

Are straining every nerve to get rid of the balance of their season's product. It's a big chance for the consumer to buy these dainty Summer garments at a big drop from early season's prices. At least we thought so when we cornered these lots. It's a case of quick sale, and first come, first served.

75 cent Waists

For 21 Cents.

A PARENTAL DUTY.

It is the duty of parents to know whether the eye-sight of their children is perfect or defective.

One child out of four has imperfect vision, according to statistics recently compiled by the school department of New York City.

These children are at a disadvantage and cannot be expected to progress with the rest unless the defect is corrected and relieved by proper glasses.

We test eyes for glasses free of charge, by the most approved scientific methods.

WAR IN SPAIN

May Result From Cuban Troubles.

The Insurgents Succeed in Interesting the People,

And Several Riots Have Occurred in Some of the Provinces of the Spanish Country.

MADRID, Aug. 6.—Trouble of a serious nature is being fomented in Spain, particularly in the province of Valencia, by agents of the Cuban insurgents. The minister of the interior, Senor Cosh Gayon, yesterday, replying to a question in the chamber of deputies, admitted that a number of riots had occurred in Valencia, and when asked to explain the cause of the disturbances, said that they were caused by friends of the Cuban insurgents who hoped thereby to prevent the departure of further reinforcements of troops for Cuba.

Hitherto the popular demonstrations have been attributed entirely to protests against the imposition of new taxes, a step made necessary by the financial strain the government has been subjected to through carrying on the campaign against the insurgents of Cuba. But, while the government is only willing to admit that the riots have been instigated by the agents of the Cuba revolutionists, it is generally admitted that the roots of the trouble are much deeper and that it is being nourished by the natural feeling of alarm and dismay at the apparent utter inability of the government to cope with the situation in Cuba.

That the large Spanish army in Cuba must be still further and heavily reinforced is looked upon here as being a confession of failure upon the part of the administration and as an admission of the growing strength of the Cubans. In addition, many letters have been received in different parts of Spain by the relatives of Spanish soldiers serving with the army in Cuba and they tell such terrible tales of sickness, privation, incompetency and mismanagement, to say nothing of lack of pay, that a dangerous feeling against the government has arisen and is gaining strength day by day.

Under these circumstances the agents of the Cubans do not have much difficulty in carrying out their plan of causing popular outbreaks. They steadily fan the flame of discontent by pointing to the apparently unnecessary hardships which the Spanish troops in Cuba are compelled to endure. The republicans, also are taking advantage of the situation to push their propoganda and the combined movements making more headway with the masses than the government will admit, although it is already betraying symptoms of alarm and has sent stringent instructions to the prefects to promptly and effectually suppress demonstrations which may occur in their district and to have no hesitation in calling upon the military for support.

A number of conflicts between rioters and the police and soldiers have already occurred, shots have been exchanged, several persons have been wounded on both sides and a large number of arrests have been made. This, the revolutionists assert, will serve to call attention to their cause and enlist in their behalf the sympathy of the people. The roads in Valencia are being patrolled by gendarms, troops are pursuing armed bands of revolutionists in the mountainous districts of the same province and further trouble is apprehended. Madrid, up to the present, has been quiet, but signs are not wanting that the spirit of discontent is abroad and that the efforts of the government to gain support by trying to throw the blame for everything upon the United States, the chief bugaboo of Spanish politicians, will not much longer avail.

In a factory near the city of Valencia the authorities have discovered a quantity of arms and ammunition and similar stores are believed to be in existence in different parts of the province. The arms referred to are known to have been smuggled into Spain very recently and are not of foreign manufacture, showing their shipment to be part of the plan of campaign being conducted by the Cubans in Spain.

The Spanish officials, as usual, are blaming the United States for the troubles in this country, basing the assertions made on the fact that among the leaders of the recent riots was Dr. Bernando Toledo, said to be an American citizen whose brother is in command of a force of Cuban insurgents. It is claimed that money, arms and ammunition were served out to the rioters from the house which he occupied and a search of the building is said to have resulted in the discovery of a number of letters from the United States, Cuba and Argentine Republic, showing that the outbreaks here have been planned by the leaders of the Cuban insurgents and that the movement is widespread and capable of assuming most serious proportions.

Among other features of the situation here is the effort being made in certain quarters to arouse the masses against the Protestants, all Americans being classed as Protestants, and to them, as already stated, being attributed Spain's reverses in Cuba and the growing insurrection here. The Cuban agents, however, are doing everything possible to counteract this movement and are urging the people to place the blame for the excessive taxation, the military blundering and the political bluster where it really belongs, upon the shoulders of the Spanish government, and not to be misled by such foolish inventions as the statement originating from semi official sources and for a time pretty generally believed, that agents of the United States government were overbidding the agents of Spain wherever the latter tried to purchase warships for the Spanish government.

INTENSE EXCITEMENT.

In a Mining Camp Near Noblesville, Ind.

Fanaticism Characterizes the Actions of the Leaders--Troubles Arise and Arrests Are Made.

NELSONVILLE, Ohio, Aug. 6.—New Pittsburg, a mining camp a few miles from this city, is the scene of the most intense excitement, bordering upon fanaticism. The leaders claim to be in personal communication with the Lord and act under instructions from him. Excitement is so high that familes have been broken up and numerous fights have occurred over the matter. The authorities have tried every way to get rid of the fanatics, but failed. Warrants were sworn out today for the arrest of the leaders, Mart Searles and his two brothers, and when arraigned before the justice they were furious and denounced the court in most bitter terms and insulting the justice in the highest manner, even climbing upon the desk and spitting upon him. The trio were finally placed in jail and Mart was taken to the Athens asylum. The others will surely follow. Their followers number about 150, some of whom have given as high as $150 each upon being converted. The more conservative people predict that the trouble will end in bloodshed.

SUNSTRUCK!

W. H. Lepper is in a Serious Condition.

While Working on a Tannery Building in Nebraska, He is Stricken Down.

While working on the new tannery building in Nebraska today, shortly after noon, W. H. Lepper, a carpenter, suffered a sun stroke.

He was taken to the St. Joseph hospital in the patrol wagon and is now in a very serious condition. He was unconscious for some time.

Mr. Lepper resides on Zollars avenue. He is attended by Dr. G. B. Stemen.

MILITIAMAN SHOT.

As a Result of the Difficulties at Cleveland.

CLEVELAND, Ohio, Aug. 6.—A militiaman was shot on Luther street, in the east end early this morning. Between midnight and 1 o'clock a crowd made a sudden attack on a building where a man named Johnson, who is employed at the Brown Hoisting works, lives. They broke in the windows and yelled liked Indians. The soldiers heard the disturbance and rushed to the scene. Part of the crowd scattered, but a dozen men stood at bay, with revolvers and shot at the militiamen. The soldiers replied with rifle balls and then the men scattered. In the melee Private Perkins, of Company "B," was shot, but it is not known how seriously. He was taken away in an ambulance. The official statement at Colonel Whitney's headquarters is that Perkins was accidentally shot while loading his revolver. It is claimed by others, however, that he was wounded in the Luther street skirmish.

ROME CITY.

The Program at Island Park Assembly.

ROME CITY, Aug. 6, 1896.

The Uniform Rank, K. P., of Kalamazoo, Mich., gave an exhibition drill yesterday at Island Park assembly, which was of a very high order, after which Burrett Hamilton, of Sturgis, Mich., presented them with a stand of colors. Knights from Sturgis were here 100 strong, carrying tri-colored umbrellas, and giving the K. P. large delegations. The addresses were more than up to the standard, especially the ones given by Supreme Vice Chancellor Charles Colgrove and Burret Hamilton. Tomorrow is C. L. S. C day Bishop Becker and Rev. G. M. Brown are to occupy the platform. The assembly this year has exceeded the most enthusiastic expectations, so far as patronage is concerned.

THEY'LL BE THERE.

The Presidential Candidates at Topeka.

TOPEKA, Kas., Aug. 6.—All the candidates for president and vice president will attend the old soldiers' reunion at Topeka the last week in September. Acceptances have been received from McKinley and Bryan and Garrett. Hobart has written he would be here. Invitations have been sent to Tom Watson and Arthur Sewall and the populists and democrats pledge that they will both be here.

A San Jose, Cal., paper says: "The first carload of green fruit was shipped from San Jose yesterday under the carbonic acid gas preserving process. This car has been carefully fitted up under the supervision and instructions of August Bowser, of Fort Wayne, Ind. Mr. Bowser will accompany the car east to Chicago, where it will be placed on sale in competition with fruit shipped under refrigeration with ice.

FAIR WILL CASE.

The Greatest of All Cases is On at Last.

After a Weary Seige of Legal Bickering the Twenty Million Dollar Suit Commences.

SAN FRANCISCO, Aug. 6.—After many months of skirmishing and sparring for position among the army of attorneys involved, order has been finally secured in the Fair litigation and the trial of one of the greatest will contests in the history of the United States is now at hand. By an order issued by Judge Slack yesterday the merits of the so called pencil will, the document produced by Mrs. Nettie R Craven as the last testamentary disposition by Millionaire James G. Fair of his millions of money and property, is to be decided at once and legal bickering on the part of the lawyers will give way to a determination of questions of fact and issue. Fair has been dead almost two years, but it was not until today that a definite move in the complicated legal fight was made. There have been motions and counter motions, demurrers and cross complaints, and all the other endless tactics for which law and lawyers are famous.

Some twenty millions are involved in this, the biggest law suit of California, and almost as many endeavors have been made to postpone the final trial of the case. A will has been stolen from under the very nose of the court clerks and a second will filed. A widow has arrisen by virtue of assertion that she was married by contract to the mining king, to claim a million and a half dollars of his property and has filed deeds to substantiate her claim. Charles L. Fair has disputed Mrs. Craven's claims. George A. Knight thinks he can win a case for his client and disable Mrs. Craven and her claims in sixty days. But others doubt Knights ability to settle the question so quickly.

MAYOR PINGREE

Nominated for Governor by Michigan Republicans.

M. D. Frank Will Lead the Democratic Forces of Maine--Wisconsin Convention.

GRAND RAPIDS, Mich., Aug. 6.—The second day's session of the republican state convention was called to order at 10 o'clock this morning. The motion to divide the St. Clair county, giving Bliss and Pingree each eleven votes, was adopted by a large majority. A number of seconding speeches were then made and the convention proceeded to take a ballot for governor. The first ballot resulted: Pingree, 339; Bliss, 286; O'Donnell, 83; Wheeler, 47; Conant, 22; Aitkin, 56. Necessary to choice, 417.

On the second ballot Pingree had 358; Bliss, 297.

On the third Pingree was but twelve votes short of a majority and he was nominated on the fourth ballot amid tremendous enthusiasm.

WATERVILLE, Maine, Aug. 6.—M. D. Frank, of Portland, was nominated for governor of Maine at the state democratic convention this afternoon.

MILWAUKEE, Wis., Aug. 6.—The republican state convention reconvened at 10:18 this morning, when the roll call of districts was resumed for seconding speeches. During the progress of the call for seconding speeches Senator Thurston was introduced and made a brief address. The senator, who is a Wisconsin man, was tendered an ovation by the delegates.

DUEL WITH KNIVES.

One Man Dead and the Other Dying.

Became Involved in a Fight Through Discussion of a Neighborhood Protracted Meeting.

GREENVILLE, Ky., Aug. 6.—Yesterday afternoon two farmers, Tom Hall and Terry James, became involved in a difficulty over a discussion about a protracted meeting held in the neighborhood. They came to blows and both pulled their knives. Terry James was stabbed five times and died this morning. Hall is cut in seven different places and cannot live through the day. The men fought in the broiling hot sun and were alone when the fight occurred, no witnesses being present.

MILLIONAIRE ROBBED.

He Was Kept a Prisoner for Two Days.

SAN FRANCISCO, Aug. 6.—James A. Campbell, a Honolulu millionaire, who disappeared last Monday, returned last night with a bullet hole through his hat and an exciting tale about an adventure with robbers. Campbell says that while he was drinking in a private room in a saloon he was confronted by two masked men who demanded money. The millionaire refused the demand and in the fight that followed a bullet went through his hat and Campbell says he was robbed and kept a prisoner for two days. When released last night he was given a nickel for car fare.

DISCOURAGING OUTLOOK

For Farmers and Business Men in West Virginia.

PARKERSBURG, W. Va., Aug. 6.—The crop bulletin issued by the state weather bureau gives a discouraging outlook for farmers and business men depending on them. It gives a report by counties of the damage by the recent cloud bursts, high waters, etc. Great damage was done in northern counties and to the valley. Wheat and oats are sprouting in the stacks and potatoes are rotting in the ground. In Randolph county alone, the damage is estimated at $100,000 to the farmers. Fields of corn and gardens were washed away.

FACTS AND FIGURES.

School Board Files Its Annual Report of Finances.

The Amount Paid Out in a Year From the Special and Tuition Funds.

The annual report of the board of school trustees for the city of Fort Wayne has been filed with the county commissioners. By going over the figures the reader can learn just what it has cost to conduct the schools for the year ending last July.

SPECIAL FUND.

The receipts of the special fund were as follows: Balance on hand from last year, $29,931.68; received from county treasurer, special school tax, $38,633.69; from sale of old furniture, etc., $91.56; from displaced books, old books, etc., $171.88; contingent fund returned by John S. Irwin, $17.66; sale of old paper, $5.90. Total, $68,852.37.

The expenditures of the special fund for all purposes, except tuition, amounted to $32,548.04; balance now on hand, $36,304.33.

TUITION FUND.

The receipts of the tuition fund were as follows: Balance from last year, $32,438.30; received from county treasurer for liquor licenses, $11,293.10; from state fund, $20,270.52; from state apportionment, $18,062.33, from supplementary tuition tax, $12,186.22; other sources, $1,684.78; total receipts, $95,935.25.

The expenditures for this department amounted to $62,439.65, leaving a balance of $33,495.60.

The tuition fund can be drawn from only for teachers' salaries, while the special fund is used for the maintenance of the schools, repairs, new buildings, furniture, etc.

Thus it will be seen the trustees have on hand $33,495.60 with which to pay teachers up to January 1, and $36,304.33 for the other expenses for the same period. From the latter amount must come the payment for the two new school buildings now under way and the equipment of the same.

Next January the county treasurer will turn over to the trustees the half yearly installment for 1897.

KANSAS POPS

Put Senator Leedy at the Head.

They Endorse the St. Louis Platform and Bryan and Watson.

ABILENE, Kan., Aug. 6.—The nomination of Senator Leedy for governor at 2 o'clock this morning left the delegates to the populist convention in a mood for quick work today and they began at 9 o'clock.

United States Senator Pfeffer opened the session with an address advocating the fusion of anti-silver forces on a basis of votes cast for all offices. The convention quickly got down to the consideration of the resolution committees' report, and without much ado the report was adopted as presented. The resolutions endorse the St. Louis platform and Bryan and Watson; they congratulate Kansas that since the populists have been in politics many good laws have been secured; condemn the republican house of representatives for failing to pass bills sent from the populist senate; demand that the officers carry out the will of the people; that the attorney general enforce the statutes limiting corporations to the business named in their charters, and that railroads shall do no other business than common carriers; condemns favoritism to shippers by railroads; favors a maximum freight law; demands restoration of convict labor; demands the reduction of public sanitaries; demands that the supreme court, in justice to the people, clear its docket.

THIRTY DAY SUSPENSION

No More Trading on 'Change for a Month.

The Moore Brothers' Failure and Fears of a General Panic Are the Causes.

CHICAGO, Aug. 6.—It is reported on excellent authority that trading in the account on the Chicago stock exchange will be suspended for thirty days after the exchange shall have opened. It is also probable that the deals in future options will be limited to a week or ten days. All this has been caused by the Moore Bros.' collapse. No one knows that is, no one save the special committee appointed to arrange a settlement of the Diamond Match and New York Biscuit deals of the Moore Bros.' when the stock exchange will resume active business. The room traders and many others have begun to make loud complaints against what they call the "arbitrary action" of the governing board in closing the exchange. They claim it is done to protect a favored few and that it does the majority of dealers great injury. It is said the Moore Bros.' and the special committee from the stock exchange will finish their labors before tomorrow night and make a statement as to the financial standing of the firm.

Summit City lodge F. and A. M. will meet tomorrow evening, and will elect a junior warden.

NOTABLE CAREER.

Death of Mrs. Amelia Hicks-Lord at New York.

Twice Married to Wealthy Merchants, She Survives Both and Leaves an Estate of $2,000,000.

NEW YORK, Aug. 6.—Mrs. Annette Hicks-Lord, who was in her day one of the most notable figures in New York society, died at her residence in this city last night, aged sixty-seven years.

Mrs. Hicks-Lord was descended on her mother's side from a titled English family and was related to General Robert Schenck, once United States minister to Great Britain. Her father, Unico Peter Wilkins, married Adeline Schenck, whose family had a great deal of property on the Fishkill river. The couple went to Guiana, and there Annette was born. Subsequently the Wilkins family returned to this state, making their home at Matteawon, where Annette grew to womanhood.

At twenty-five she was married to Thomas Hicks, a wealthy merchant of twice as many years as her own. Her marriage settlement included considerable property at Toledo, Ohio, and elsewhere, which, when Mr. Hicks failed a few years later, gave his wife an income sufficient for the maintenance of both until the husband died. The widow's fortune was increased by inheritances from relatives in Holland, so that she was able to entertain most lavishly, her receptions being among the most noteworthy of the period in New York.

Then the widowed Mrs. Hicks went to England and as a relative of the United States minister was presented to Queen Victoria. She set up an establishment in London, which was as celebrated in its way as had been her New York home. Admiral Alden, U. S. N., gave her the unusual distinction of taking her on board the flagship of the Mediterranean squadron to Alexandria and thence on board the frigate Wachusett to Jopha. Thence she proceeded to Jerusalem with an escort of sixty United States sailors. On the return to Alexandria the Wachusett tried to enter the port of Alexandria in the night without a pilot and had a hole knocked in her bottom.

After Mrs. Hicks had returned to America Thomas Lord, an octogenarian dry goods merchant with a fortune of $6,000,000, paid suit to her, but she refused him and went to Europe for a season. Her absence did not cool Mr. Lord's ardor, and he renewed his suit with better success. When she came back to New York in 1877, they were married.

The six children of Mr. Lord thereupon obtained a writ of de lunatico inquiredo and sought to have the marriage set aside on the ground of the mental incapacity of Mr. Lord. The couple, however, so completely secluded themselves in the wife's home in Fourteenth street that for months detectives were unable to reach them.

The fight of the younger Lords was finally abandoned. A year later Mr. Lord died, and after a proper season of mourning, his widow re-entered society, her entertainments taking on even greater magnificence than those of her earlier career. Recently her health failed and she traveled extensively. She also devoted much of her thoughts and money to religion. A few years ago her fortune was estimated at $3,000,000, not taking into account magnificent collections of plate, rubies and cameos.

LABOR DAY.

Big Holiday of the Craftsmen to be Held Here.

Splendid Program to be Arranged--Reduced Rates Secured on All Railroads.

Last evening a committee consisting of John Koch, G. R. Hench, L. C. Kasten, Isidore Friend and Mrs. Gorsline held a meeting for the purpose of making arrangements for a Labor day celebration in this city. This committee was appointed by the Trades and Labor council, which organization has the matter officially in hand.

Labor day, a legal holiday in Indiana and many other states, made so through the efforts of organized labor, falls upon the first Monday in September.

The committee which met last night decided to use their best efforts toward making the day in Fort Wayne a grand gala event that will attract many visitors to the city, and to assist them the railroads will offer reduced fares. A speaker of national reputation will be secured, and he will be a man well posted upon the topic of labor. Athletic games and sports of various kinds will be on the program.

There will be no parade, as the day's festivities will be held at Robison park.

GEORGE DUNLAP MISSING.

Remaining Heirs Will Divide the Estate Without Waiting.

TERRE HAUTE, Ind., Aug. 6.—After ten years of absence, George Smith Dunlap, heir of the late Andrew Dunlap, of Sugar Creek township, cannot be found, and his share in the estate, amounting to about $25,000, is about to be confiscated by the remaining five heirs. The law provides that if one is gone for five years without any information whatever as to the person's whereabouts, he may be considered as dead and his property diverted to the next nearest heirs. The deceased's will cuts off Thomas Dunlap, of this city, with but $2, but, according to an agreement reached yesterday, he will receive a full share with the rest.

Andrew Dunlap was one of the wealthiest residents of the county. Yesterday a daughter produced $12,000 in government bonds as part of the assets of the estate. The coupons had not been clipped since 1892.

THEY ARE FAST ONES.

The Horses Entered for Next Week's Races.

A Visit at the Driving Park Shows Nearly Sixty Horses There Now Under Training.

Those who have an idea that "following the horses" is one continual round of pleasure, could have had their minds completely disabused had they accompanied THE SENTINEL man to the Driving park last night, about 9 o'clock. There are now about fifty or sixty horses and almost the same number of men quartered there getting ready for next week's races.

Between the intense heat and the myriads of mosquitoes which infest the quarters, the poor swipes had a sorry time of it. This morning the mosquitoes laid off to be ready for business tonight, but old Sol got in his work in beautiful shape. The horses were out on the track, though, and as this is the kind of weather that makes fast time, there will be some mighty fast going next week if the weather is at all propitious.

Frank Gruber had his flyer out and was to have met Charlie McDougall's Razor Blade in a friendly heat, but as McDougall failed to show up Frank was obliged to speed alone and showed the last half mile at a :21½ clip.

Among the well known stables that are already represented on the grounds are:

Oakwood Stock farm, of Prairie View, Ill., with a string of six. Sandy Boy, with a record of 2:14¾ is at the head of the list, but there are some other speedy ones there besides.

Centlivre Bros. have Atlantic King, Nydia, Frank Bogash, Major Centlivre, Dr. Morrow, Emily W. and others in daily training and Rockhill Bros. and Fleming and W. D. Bash are likewise represented.

Scott McCoy is handling half a dozen good ones, not the least of which is J. H. L., the Omaha horse, who will try issues in the 2:09 pace on Friday.

W. P. Ijams, the leader of the Terre Haute syndicate, has a large stable, and C. W. Williams, of Galesburg, Ill., has half a dozen on the grounds.

The Village Stock farm, of Aurora, N. Y., will be in on Saturday night, and on Sunday the Columbus, Ohio, races will contribute a large contingent.

Secretary Rockhill says the entry list is the finest ever booked for an Indiana race and all that is required now is favorable weather to make the meeting the most successful ever held in this city.

The Texas stables of Paris, Texas, have a colt entered in the two year old pace Monday named Claude Cour. The original Claude Cour is a Fort Wayne boy now located at Dallas, Texas, who for a number of years has been secretary of the Texas state fair association.

Miss Jennings, the Buffalo wonder, will be seen in the 2:14 and the 2:20 pace. She is a corker and one of the phenoms of the year.

Dandy Jim, that villainous gray, will start in the 2:09 trot on Wednesday. Jim is all right after the word is given, but he is capable of provoking more pro'anity among Christian gentlemen than any other piece of horse flesh in the ring.

Major Centlivre will be in fast company in the 2:12 pace next Thursday. He will have to shake his heels pretty lively to keep out of the dust of Rustler Russel, Sphinxette, Capt. Crouch, Sandy Boy, Josie B. and several others in that class.

Monday's races will probably not be as fast as some others, but they will be just as interesting. Keep an eye on the 2:20 trot—it will be a lulu. Lulus come only once in the game.

THE COURTS.

But Little of Interest is Taking Place.

Richard Sithens has commenced suit in the superior court against John Telgmann and others on note and mortgage for $500. P. W. Schaden is attorney for plaintiff.

Lillie B. Hendler has asked the superior court to grant her a divorce from John Hendler with alimony. W. G. Colerick is attorney for plaintiff.

The trial of the suit of Jacobs vs. Robertson was brought to an end in the circuit court yesterday afternoon. The case has consumed much time. Judge Comstock, of Richmond, who presided as special jude, will hold his verdict under advisement for a while.

The following city real estate transfers have been recorded: Anna and H. S. Buckley to Citizens' Loan and Insurance company, lots 11 and 12 Ewing's grove, $2,100. William Engelking to Sophia Engelking, part of lot 1, Gerken's addition, $1. Henry and Anna Engelking to Sophia Engelking, lot 1, Gerken's addition, $105. W. H. H. Miller to Sarrah J. Hough, undivided one half of west twenty feet of lot 111, Old Plat, $6,500.

Less Than Manufacturers' Cost.

Owing to the failure of the Wheelock Piano Co., I have been compelled to discontinue the agency for these valuable instruments. Having but two of them in stock, we will close them out at ½ less than their value. Call and see. G. CONKLIN, 31 E. Berry.

TWO DROWNED!

Jimmie Hawkins and Harry Lease,

While Crossing Spy Run Stream,

Sink to Their Death Before the Eyes of Their Companions.

Details of a Shocking Accident, Whereby Two Boys Are Swept to Eternity Without Warning.

Dreadful affliction and deep sorrow was visited upon the homes of two of our respected citizens today.

Two lads, Jimmie Hawkins and Harry Lease, who left their mother's presence, full of life and boyish happiness this morning, lie dead in the morgue of Funeral Director Peltier as THE SENTINEL goes to press this afternoon.

The bereaved parents are Edward Hawkins, the well known cigarmaker, residing at the corner of Broadway and Jefferson streets, and A. L. Lease, a brakeman on the Grand Rapids and Indiana railroad, living at 104 Madison street.

The boys were cousins. Both were allured to the jail flats by the circus which has its tents pitched there and at that place they met about 9 o'clock this morning. Naturally enough, they remained together, playing about the show grounds and the vicinity of the river until noon when they started to go home by the way of Spy Run avenue.

Crossing the Clinton street bridge near the city crematory they followed the north bank of St. Mary's river to Spy run. This stream is about twenty-five feet wide and empties into the river at this point. No bridge spans it, but there has been built here what is called a "blind bridge," under water, a structure used only for wagons hauling gravel from the river bank. At this point they were joined by two Pieper boys, who live on West Jefferson street.

The Hawkins and Lease lads started to cross the dangerous blind bridge and were about half way across when Hawkins slipped and fell into the water, which was fully fifteen feet deep, on account of dredging which had been going on. The boy had hardly disappeared when young Lease also fell in. The Pieper boys had remained on the bank and now stood aghast at the struggle of the poor little fellows, who it seems could not swim.

Panic stricken the Piepers ran away from the spot to seek assistance. They quickly notified the men at the electric power station, near by, and William Rockey, one of the employes, hurried to the scene of the accident, but too late, for the boys had gone down for the last time.

With great courage Rockey hastily dived for the bodies, and, although he persevered until almost exhausted, it was sometime after the accident when he secured both bodies.

The two little corpses were stretched on the bank when a SENTINEL reporter reached the scene. Jimmie Hawkins was nine years old, and the only child. Harry Lease was eight years old. Both were bright and promising lads, whose sudden fate will be cause for a widespread expression of sympathy to the parents and families, whose cup of sorrow is now filled to overflowing.

The bodies were taken to Peltier's and will be removed to the homes of the parents this evening.

Edward Hawkins, father of one of the boys, was a former employe in the Trentman cigar manufactory, but lately got out of work and went to Toledo, where he is now working. The sad news was wired to him this afternoon.

Card of Thanks.

We desire through the columns of THE SENTINEL to express our unbounded gratitude to our countless friends that so kindly assisted us in our recent bereavement. Our thanks are especially due to the Hibernian Rifles for the respect they paid the deceased and family by their appearance at the house in a uniformed body. Our sincerest wish is that the angel of death may not soon darken their homes.

MR AND MRS. JOHN NOLAN AND FAMILY.

William J. Leader has invented a garbage box which proves to be quite a departure from the usual order of receptacles of this kind. It is pronounced to be the best box ever shown in the city. Mr. Leader will try to have the board of health adopt it.

Fort Wayne Gold Democrats Hold a Meeting,

Pass Resolutions and Will Send Delegates to the Convention at Indianapolis.

Twelve democrats who are opposed to the free coinage of silver, which is one of the principles announced in the democratic national platform and the leading issue in the campaign this year, met at the law office of Perry A. Randall last night to give an expression of their sentiments regarding an independent democratic ticket.

Ex-Senator J. D. Sarnighausen, editor of the Staatz Zietung, one of the democratic German daily newspapers of this city, was selected as chairman of the meeting, and Samuel M. Foster was chosen secretary. After some discussion, the following resolutions were offered and unanimously adopted:

"Resolved, That it is the sense of this meeting that the integrity of the democratic party and the welfare of the whole country demands that a national convention be called at which such action may be taken as shall give expression to democratic principles and furnish to the voters candidates who shall represent these principles."

A committee was appointed to go to Indianapolis Friday, August 7, to represent the gold standard democrats of Fort Wayne in the provisional convention to be held in that city. S. M. Foster was made chairman of the Indianapolis committee and associated with him are H. C. Berghoff and John F. Rodabaugh.

Among those who were present at the meeting were J. F. W. Meyer, ex-Senator Sarnighausen, Hon. S. M. Foster, P. A. Randall, A. E. Hoffman, R. L. Romy, Hubart Berghoff, Charles Falk, T. W. Wilson, Judge S. R. Alden, Will Tigar, A. A. Furman. A letter of regret was received from Hon. P. S. O'Rourke, and it was stated that Hon. Charles McCulloch was also in full sympathy with the object of the meeting. Henry Berghoff was unable to be present on account of absence from the city.

LOCAL LINES.

IT will be a pretty hot night to make a political speech, and yet Judge Taylor is going to make one this evening at the Masonic Temple.

THIS would be a good time to look for the north pole.

LAWN socials are in the heighth of of their glory just now.

THE democratic majority in Alabama has now got up to 50,000.

THE gold standard democrats are not very numerous in Fort Wayne.

ROBISON park is a favored resort these hot summer afternoons and evenings.

WEATHER like this makes the ice cream and soda water dealers happy.

MERCHANTS will line up for the Fort Wayne races. They will bring many visitors to the city.

ACCORDING to the views of the scientific world, next Sunday will be the greatest day of all the year. A total eclipse of the sun will then occur, but will be visible only in the vicinity of Japan and the Pacific.

IT is claimed that Mark Hanna offered Burk Cochran, of New York, $250,000 to stump the Empire state for the gold standard idea. This may explain the reason this eloquent New York democrat has come out in opposition to Bryan and Sewall.

IN AN interview the other day on the money question, Rev. T. DeWitt Talmage, the famous divine, said: "If the silver people win, I believe there will be such a revival in business, such a booming in industries, which are now inactive, and such a general shaking up of commercial interests that the country will be sure to prosper."

THE recent wet spell and the subsequent warm weather together have produced the greatest crop of blood thirsty "skeeters" this or any other locality ever knew. At the dusk of evening the air is full of them and they all seem to have an ambition to get full—on human blood. What earthly use these pests to humanity are we have never yet been able to discover.

THE discovery of what appears to be a prolific field of natural gas in one of the suburbs of Indianapolis is of great value to that city and it also tends to encourage the hope that the supply from which various other Indiana cities draw will be kept up for many years to come. Nearly all of the prophecies of so-called experts have fallen flat, and the mystery concerning the formation, extent and endurance of natural gas reservoirs remains as impenetrable as it was at the beginning.

WYOMING has a hustling woman candidate for governor, by name Miss Estella Real. She is said to be attractive and a good campaigner. At present she is state superintendent of public instruction and in the race for that office three years ago she visited every county in the state and made over 500 political speeches. Should she be nominated for governor a repetition of this campaign is certain and she can be depended upon to lead her opponent a merry dance. Woman suffrage and the emancipation of her sex are Miss Real's political slogans. She rides horseback as well as a man, and has unbane manners which capture the rustics of her state. What Miss Real's chances are for securing the nomination there are no means of telling at this time. The probabilities, however, are that she will have to wait a little while longer.

LI HUNG CHANG has arrived in England, and, in anticipation of his visit to the United States, Americans in England have been treating him with special attention. It will be the experience of the great Chinese minister to see a great deal of the United States, as he will entirely cross the country and sail from San Francisco for home. He will doubtless have a pleasant, though brief, sojourn, with the Americans, as he has had with the other people he has met since he left China, and it is probable that he will leave them in as much uncertainty as to the real object of his mission as he has left the others. There is reason to believe that Li Hung Chang is out for a good time, and not much more, and that the end and object of his statesmanship are really to make the China that now is last out his days.

THE democrats who call themselves "sound money men," by way of distinction from the great msp of the American democracy who support Bryan and Sewall, held a meeting of some sort at the office of Perry A. Randall last night and appointed a delegation to represent their views in the convention that is to meet at Indianapolis tomorrow. We are so well satisfied that these late brother democrats are off the track and wandering in strange paths from honest convictions that we have not a harsh or other word of censure for their course. We will not even remind them in an offensive way that, according to both precedent and logical deduction, they are bolters from the party instead of being its leaders. This they will, sooner or later, realize in and of themselves, and we predict that the majority of those who composed the meeting last night will be found back in the party ranks and fighting for the same good old democratic banner before the November snow flies. We are very sure that such will be the case, though we do not, from prudential reasons, venture to state the grounds for our belief more fully just now. All things become known in due time, and that which is well done is done soon enough.

It is little wonder, on the whole, that the people of France are beginning to see fiends and devils in the air and hear horrid voices urging them to crime. The French are the most excitable nation on the face of earth. For 50 years the men of Paris and of all who follow Paris ways have been drinking absinth and vermouth wildly, increasing the national excitability. Every abnormal stimulant to the nerves that imagination could devise they have indulged in to the bitter end. These indulgences and depravities have struck at the manhood of the nation. Is it strange the fit of delirium tremens follows? A gifted French author commits suicide; another famous French writer is taken to a lunatic asylum; an artist of worldwide fame dies of melancholia. French novelists and editors have sown the wind and they and their fellow countrymen are reaping the whirlwind. The air is peopled with monsters, demons grin at the children of French mothers and fathers. France is passing through a period of delirium tremens and hysterics brought on by insane drinking and thinking and wild and uncontrolled acting. Devils? Yes. The only wonder is the insane imaginations of absinth drinkers did not create them long ago. Those who lead lives of purity, temperance, justice and decency need fear the sight of no devils.

An odd sort of railway company has been organized in Iowa. It will be built by its stockholders themselves on the co-operative plan. Its capital stock is $750,000, divided into shares of $20 each. The road is from Sioux City to Hartley. Stiff arrangements have been made to prevent this co-operative road from falling into the hands of a bloated plutocracy. No salary above $2,400 will be paid, and no dividends above 5 per cent a year. It was hardly necessary to insert the clause against dividends.

Benjamin Jeans, the old railway guard who has been running on the trains of an English road—the Great Western—for 53 years, could never have done the thing in America. If he had started his railway career in this country he would have been smashed up in an accident or collision long ago.

FANTASY WINS.

Trots the Fastest Heat of the Season at Columbus.

Outfoots the Favorite—Benzetta in the Big Free-for-All—Results From Various Other Places.

COLUMBUS, Ohio, Aug. 6.—Fine weather and a fast track contributed to the success of the races yesterday. The free-for-all trot was the card that drew out a big crowd. Beuzetta, driven by Hickok, was the favorite, but Fantasy, driven by Geers, won the race in straight heats. The first heat in 2:06½ was the fastest ever trotted in a race on the Columbus track, and the fastest made any where in a free-for-all trot this season. Fantasy only equaled her former record, but would have broken it had she been pushed a little harder by the other horses. Beuzetta made a spurt in the last heat and pushed Fantasy so closely under the wire that the latter only won by a nose.

Klamath, the favorite in the 2:09 trot, was only able to take the first heat, Kentucky Union winning the next three in easy style. The first heat in the 2:25 pace was marred by an accident, in which Ed. Geers, the veteran driver, had a narrow escape. Just after the horses got away Silk Woodnut, driven by Grady, stumbled and fell. Red Oak, driven by Geers, was close behind, and, being unable to get out of the way, went down also, throwing Geers over his head. Geers struck on his shoulders and his presence of mind saved him, for he crawled under the fence just as Red Oak rolled over. He was pretty badly shaken up, but will be in the sulky again in a few days. The summaries:

2:15 Trot, Purse $1,500—New Castle, first; Fred B, second; Aline, third. Combine, Colerima, Dollikins, Orange Chief, Wilmarch, Sunland, Charming Chimes and Jimmy Hague also started.
Time—2:11¼, 2:12¼, 2:15¼, 2:16¼.

Free-for-all Trot, Purse $2,000—Fantasy, first; Beuzetta, second; Onequa, third; Lold Clinton, fourth.
Time—2:06½, 2:08, 2:09¼.

2:09 Trot, Purse, $1,500—Kentucky Union, first; Klamath, second; Bouncer, third; B. B. P., fourth.
Time—2:07½, 2:09, 2:08¼, 2:09½.

2:25 Pace, Purse $1,500 (unfinished)—Planet, first; Sherman Clay, second; Silver Chimes, third. Jack, Red Oak, Nutbreaker, jr., Robert F., Maud and Silk Woodnut also started.
Time—2:10¼, 2:14¼; 2:14

OTTUMWA, Iowa, Aug. 6.—At the Ottumwa mile track yesterday afternoon J. H. Dunlavey, of Joliet, Ill., who was driving his bay gelding, Fred Lader, in the three minute trot, was made to get off his sulky and give the lines to another driver. Lader took third place. The three year old and two year old free were postponed till tomorrow on account of rain. Summaries:

3:00 trotting—Captain Jack, first; O. Strund, second; Fred Lades, third—best time, 2:15½.

2:19 trotting—Sam Medium, first; Llewellyn, second; Winnie B. third—best time, 2:17¾

BEDFORD, Ind., Aug. 6.—Bedford Trotting association races yesterday. Summaries:

2:30 trot, purse $150—Alty Y., first; Isin, second; Alabama, third — best time, 2:30.

2:40 pace—Alice W., first; Little Dally, second; Joe Davis, third—best time, 2:29¾

MENDOTA, Ill., Aug. 6.—Following are yesterday's summaries:

2:25 pace, purse $300—Blaze Boy, first; Mary, second; Eddie R, third—best time, 2:18¼.

RICHMOND, Ind., Aug. 6.—The Wayne county fair opened at Hagerstown yesterday. The attendance was large and the races were interesting. The summaries:

2:45 pace—Light Star, first; Silver May, second; Ivy, third—best time, 2:24½

2:50 pace—Mexican Boy, first; Nesty Word, second; Red Bee, third—best time, 2:25½

GRIGGSVILLE, Ill., Aug. 6.—A large crowd attended yesterday's fair and races. The track was in excellent condition. Following are the results:

2 Year Old Class, Pacing, Purse $200—Frielmont, first; Louise H., second; Vera G, third. Best time, 2:23½

Combination Trot and Pace, 3:00 Class, Purse $250—Alzemont, first; Vanzetta, second; Sister Crow, third. Best time, 2:34¼.

2.45 Class, Trotting, Purse $300—Jim Laurence, first; George C., second; May Apple, third. Best time, 2:28½.

TIPTON, Ind., Aug. 6.—The races opened auspiciously yesterday with an attendance of 5,000. The track was heavy. Summary:

Green Run, Half Mile Dash, Purse $250—Belle, first; Nellie Hoover, second; Fleet Girl, third. Time, 0:45.

Green Pace, One Mile, Purse $250—Betsy McConnle, first; Joe Jolly, second; Windfall Girl, third. Time, 2:38.

Two Year Old Trotting, Purse $300—Frost, first; Big Frank, second; Dan, third. Time, 2:41.

ECZEMA From early childhood until I was grown my family spent a fortune trying to cure me of this disease. I visited Hot Springs and was treated by the best medical men, but was not benefited. When all things had failed I determined to try S.S.S. and in four months was entirely cured. The terrible eczema was gone, not a sign of it left. My general health built up, and I have never had any return of the disease. I have often recommended S.S.S. and have never yet known a failure to cure.

A Monster Double Menagerie With John Robinson and Franklin Bros. Show Combined.

The menagerie department of these combined shows is beyond a doubt the greatest that the world has ever known. The two menageries have been blended into one and the combining of these two separate and distinct departments alone would make a display the equal of which has never been seen in this country. There are two distinct herds of elephants, camels and all sorts of lead stock, two separate departments of lions, tigers, panthers, and the only pair of real black tigers that has ever been seen in this country. The den of polar bears is a positive revelation to amusement seekers and the same thing was never seen in this country before with a traveling show.

A great many dens of rare wild beasts are displayed daily in the magnificent street parade, which is free to all and will take place daily at 10 a. m. And the very important fact must not be overlooked that the parade, like every other department of these great shows, is a double one, unlike any ever before seen. Many shows have and do at the present time advertise dishonestly that they have two shows in one, but there has never been a combining of two really great shows in this land before and people who are in doubt as to the genuineness of the putting together of the John Robinson and Franklin Bros.' shows can readily set their minds at rest. This monster amusement institution comes to Fort Wayne, Monday, August 17, for one day, and will give two complete performances.

Summit City temple No. 5, of the Order of Pericleans, held a large and enthusiastic meeting in their hall in the Aldine building, on Berry street A class of nine was initiated, composed of Mr. and Mrs. Hilton, Mr. and Mrs. E. E. Bisell, Mr. and Mrs. Andrew Bailey, Mrs. Cretzinger, Dr. Al Snyder and Martin Merriman. This new temple is progressing rapidly and now fairly rivals the older temple of the order. Mr. A. J. You, general organizer, attended the meeting and exemplified the ritual. Mr. You speaks favorably of the future of the order. An invitation from Decatur temple to temples Nos 1 and 5 was received and a visit to that town is in course of preparation. The phenominal growth of this new order speaks highly of the business ability of our citizens, who compose its supreme body, and are pushing it to the front.

What a great quantity of work a "good housekeeper" finds to do! There are so many little time- and strength-taking chores that have no names. And it must all be done whether the housekeeper feels like it or not. This is true of men's work too, but men's manual labor is never so complicated as housekeeping. In some way or other "the world's work must be done." This iron-clad rule is harder on women than it is on men. A man can't be as sick as a woman.

As a man's organization is simpler and stronger, it follows that his ailments are less complicated. He is not subject to the chances and changes, physiologically, that come to the average woman.

If a woman is in good health there is no more healthful employment than housework. Generally speaking, there is no happier woman in the world than the one who is well and busy all day long "making home" for dear ones who depend upon her. But how different when every breath is pain, every step torture! This state of health, in nine cases out of ten comes from derangements of the delicate, feminine organs of generation. The family doctor inquires first concerning these. He most usually insists upon an "examination." From this the modest woman naturally shrinks. She is right. Excepting in very unusual cases of "female weakness" examinations are unnecessary. Dr. Pierce's Favorite Prescription is a simple, natural remedy for these ills. It cures gradually, safely, permanently. Here is one testimonial out of thousands:

"I was ill four years with 'female weakness.' I took two bottles of Dr. Pierce's Favorite Prescription. I do my house work now without pain or faintness." Yours truly,

Obeying and Breaking the Law.

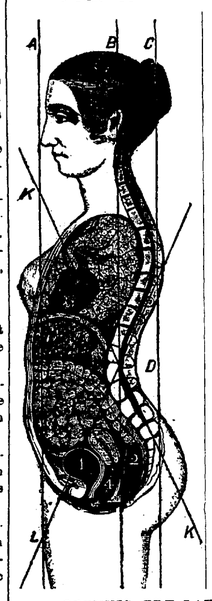

THE LAW. "The internal organs are under the law of position one to another; out of position they must take rank as dislocated organs or orgains out of joint."—BANNING.

TO THE PROFESSION.

The writer of this article, which is intended more for the eyes of the laity than those of the profession, does not wish to be understood as claiming that the derangements mentioned are always purely mechanical, or that mechanical therapeutics alone can always fully meet the conditions; but that the mechanical elements in these cases is frequently the predominating one and, where so, mechanical forces are needed to supplement the medicinal treatment

All the Banning Surgeo-Mechano adjuncts are at the service of the profession, and are free from proprietary restrictions

FIG. 1.

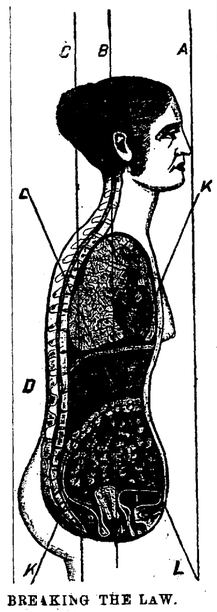

OBEYING THE LAW

FIG. 1.

Is an outline representation—without attention to minute anatomical accuracy—of a perfectly formed healthy woman. The lower abdomen is small; the waist round and full; the chest broad and deep. Lines B, L and K, by crossing at D, demonstrate that the trunk is poised over its true centre of gravity that the centripital state exists, all forces flowing from circumference to centre. "The point at which a downward force is met and equally antagonized by the resisting force is its centre of gravity."

From the body's centre of gravity all motion must flow and return. Place your thumb on your friend's back at this point and you will find they can not bow, cannot move the shoulders forward one iota, unless they step away from the pressure or push your thumb backward. Again, your friend being stooped over, press at the same point firmly and he will be compelled to stand erect or exercise great resistance to your pressure to prevent doing so. Thus we see that expanding the chest will not throw forward the small of the back (push it underneath the shoulder) or wearing a so-called 'shoulder brace" correct stooping or drooping. Note also in Fig 1 that the pushing forward of the back has elongated the face of the trunk and extended abdominal muscular tissue, while the back is correspondingly shortened and strained spinal muscles rested. (See converse in Fig. 2, shortened face of trunk and elongated back) Thus the muscles of the trunk by the laws of exercise and rest are rendered energetic. In this case we readily see that the inferior organs (1, 2, 3 and 4) are protected from the weight of the superior ones (5, 6, 7, 8 and 9) not only by receiving shelter from advancing spinal curve D, but by the tensed and elastic muscular abdominal wall, which supports the abdominal contents and cause them in turn to support the organs above them In this condition there is no encroachment upon the lower organs by those above them, no dragging upon the organs above by those below them The vital organs are all in their proper preordained position, all having no care for their own weight, and are performing without hindrance, and with ease, the duties assigned them. This is the natural state and OBEDIENCE TO THE LAW.

FIG. 2.

BREAKING THE LAW.

FIG. 2.

It is a perfect contrast to Fig. 1. We recognize at once that it is the imperfect form of a woman who is in imperfect health. As a consequence of general relaxation of the spinal and abdominal muscular tissue the small of the back has retreated from the trunk's true centre of gravity (junction of lines B, K and L) The face of the trunk is thus shortened and muscles relaxed, while the back is elongated and muscles stretched The muscular antagonism is unequal As a result the physical evils of Pandora's box are let loose. No longer are the interior, or lower organs (1, 2, 3 and 4) sheltered from the descending weight of the organs above. No longer does the abdominal muscular tissue hold the bowels from off the lower organs and convert them into warming stimulating support to the organs above.

Now we have, as the result of breaking the law of relation and position of the internal organs, two general effects viz: 1st. The effect of pressure on the parts below and, second, the effects of loss of support and dragging on the organs above. For the centripital state is lost and the centrifugal state reigns All forces are flowing from centre to circumference instead of from circumference to centre. In the case of the female, the whole chain of internal organs, riding down on the womb, press it out of position, "dislocate it," and, as in any dislocation, inflammation follows The womb drags upon its ligaments and frequently ovarian troubles are caused Pressure on the bladder decreases its capacity for holding urine and pressure on its neck will cause the retention of urine. Pressure on the lower end of the bowel shuts off the passage of its contents to the outer world The lower abdomen becomes (as a rule) large, the waist small, the chest narrow and shallow. The nerves, veins and arteries are compressed, at this point, where they pass through the pelvis to the limbs, and cold feet, varicose veins and swollen or shrivelled feet and legs may result. The stomach drags from the partition or the body known as the diaphram becomes irritated, inflamed and indigestion follows The heart and lungs no longer supported by the organs below and the diaphram, perform their duties with difficulty. The former hangs from its large vessels, which are thereby elongated and contracted, and thus irritated in labors, flutters and pains Respiration is limited. The contracted and narrow chest rides upon and compresses the lungs. A large number of their cells receive no air and the seeds of consumption are sown. With the trunk swinging forward from, instead of being poised over, its true gravity, the anterior, or forward edges of the spinal vertibrae receive undue compression They become inflamed and spinal difficulties may result and generally do This is the unnatural state and BREAKING THE LAW.

COMMON SENSE FUNDAMENTAL PROPOSITIONS.

It is apparent to even the most casual observer, that there exists a large class of chronic diseases which have, to this day, sturdily resisted every established method for their treatment and cure.

Among these, spinal, digestive, nervous, vocal, pulmonary and female weakness stand prominent, and have a representative, to say the least, in a clear majority of families.

PROPOSITION I.—That man, materially considered, is a machine, from the grossest fibre to the finest cell, and as such, is under the control of mechanical law.

PROPOSITION II.—The internal organs, or viscera are as much under the law of definite position as are the bones, and a functional derangement will follow a displacement in one case as well as in the other.

PROPOSITION III.—This definite position of the internal organs consists in a packed, braced and supported state from below, and not in a suspended or pendant state from above.

The surrounding elastic abdominal walls are the consumate agencies in maintaining this supported and primary state of the vital parts The abdominal walls are elastic only in proportion as the abdominal and spinal muscles are tensed and energetic—and these can only be so when the body is thoroughly erect; and when these muscles are active and strong. This is the natural and supported state (See fig 1)

PROPOSITION IV.—That the effects of a departure from the natural or muscularly supported state to the unsupported pendant state are two-fold: First, the effects of pressure upon the parts below; and, second, the effects of a change from a supported to a dragging state upon the parts above.

PRESSURE UPON THE NERVES will frequently cause numbness of the feet, prickling sensation in the limbs and paralysis

PRESSURE UPON THE DESCENDING ARTERIES will often cause imperfect circulation, coldness of the feet and withering of the limbs

PRESSURE UPON THE ASCENDING VEINS will frequently cause varicose veins and swollen limbs.

PRESSURE UPON THE RECTUM OR LARGE BOWEL will frequently cause chronic constipation, piles and prolapsus ani-protrusion of the bowels

PRESSURE UPON THE URINARY BLADDER will often cause incontinence or retention of urine, inflammation of the bladder and prostrate gland.

PRESSURE UPON THE WOMB AND ITS APPENDAGE always causes falling and diseases of the womb, its ovaries and attachments

DRAGGING UPON AND LOSS OF SUPPORT TO THE PARTS ABOVE will cause spinal disease and deformity, indigestion and affections of the heart lungs stomach, liver and spleen.

To meet these conditions there is imperatively called for such mechanical support as will restore the organs to their proper position and call forth the activity of their natural muscular supports.

desires to thank the citizens of Fort Wayne and vicinity for their very liberal patronage bestowed through the company's medical director, Dr. Banning who has been spending the last six months at the Aveline hotel in Fort Wayne They also wish to state that they are the sole manufacturers, under the supervision of Dr. Banning, of the famous "Banning System of Support" which was granted the only and highest award at the world's fair in Chicago in 1893, against competition from all the world What has been accomplished in Fort Wayne by the Rupture appliances is well known, for the best and most prominent citizens have certified to it over their own signatures. They are well It was thought best, on introducing this system to call attention to only one of its merits—he power to cure the worst of ruptures For no one could doubt that if one was ruptured that they knew when they were well The company now wishes to state that the various appliances comprising the system, are fully even if not more successful in the curing of Varicocle, Piles, Inflammation of the Prostrate Glands, Spinal Disease Paralysis Deformities of the Feet and Limbs; Drooping, Stooping, Round Shoulders Indigestion Constipation, Functional Disturbances of the Heart and Lungs, Displacements of the Womb and Difficulties of the Bladder. All of them to be understood, in such cases where the derangements are caused by a displacement, of compression of the organs, or a loss of trunkal bearings or improper muscular contraction

HE WAS A YANK.

Why the Southern Army Decided to Surrender.

Governor Matthews is telling a good story he heard in the South recently, says the Indianapolis Sentinel. In a valley in the northern part of Georgia, between two mountains which shut out all communication with the outside world, there lived an old planter, who, while an ardent adherent of the southern cause, was too badly crippled by infirmities to shoulder a musket and march barefooted. But he had a son whom he sent, and after the boy had disappeared down the road the old man waited for the news of the strife. Occasionally rumors of southern victories would float over the mountains and the old man—Uncle S—— he was called—would rejoice and take an unusually large dose of mint julep. At other times, when reverse news came and it was reported that the gray had been turned back, the old man would bitterly lament and use the same remedy for grief and sorrow that he used to quiet his joy. Through it all he had abundant faith in the ultimate victory of the Confederate army and any doubt expressed would meet with a stern rebuke.

The years wore on and news failed to arrive. The valley was deserted and there was no one to learn the course of events. The old man smoked his pipe and waited impatiently for news. One morning as he sat on his front porch with his pipe, far down the dusty road appeared the form of a solitary pedestrian. Gradually he approached and the feeble vision of the old planter recognized his long absent son. The puffs from his pipe came thick and fast, but this was the only sign of eagerness or nervousness displayed. The gate swung open and the soldier walked up and sat down on the steps.

"Mornin', Jim," said the old man.

"Mornin', pap," was the quiet response.

Insurance for Enterprising Youth.

Now and then we hear of some rich person leaving several hundred thousand dollars to colleges and other institutions. If rich people would desire to perpetuate their memory, a novel and lasting monument to them would be to select 100 or 1,000 deserving young men, and bequeath to them $1,000 each, with which to start in business. The blessings that would follow such philanthropy cannot be estimated.—Chatham, Va., Tribune.

WOMAN'S POWER.

IT SHAPES THE DESTINIES OF MEN AND NATIONS.

Where Men Are at a Disadvantage, and "Only a Woman Can Understand a Woman's Ills."

Woman's beauty, love and devotion, rule the world. Grand women; strong mentally, morally and physically, whose ambition and magnetic influence urge men to deeds of grandeur and heroism. Such women are all-powerful. Weakly, sickly, ailing women have little ambition; their own troubles occupy their thoughts, and their one object is to get well.

They have no confidence in themselves, and only too often lose faith in their physicians.

All irregularities, whites, bearing-down pains, nervousness, headache, backache, "blues," distaste for society, sounds in ears, palpitation, emaciation, heavy eyes, "all gone" feeling, dread of impending evil, sleeplessness, etc., should at once be removed and vigorous health assured.

Lydia E. Pinkham's Vegetable Compound has for twenty years saved women from all this. Hear this woman speak:—

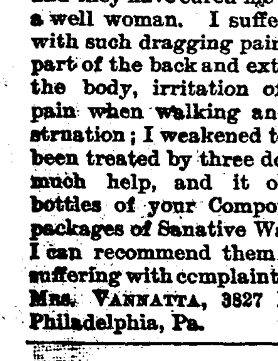

"I wish to publish what Lydia E. Pinkham's Vegetable Compound and Sanative Wash have done for me. I had falling of the womb and leucorrhœa, and they have cured me of both. I am a well woman. I suffered dreadfully with such dragging pains in the lower part of the back and extending around the body, irritation of the bladder, pain when walking and painful menstruation; I weakened terribly. I had been treated by three doctors, without much help, and it only took five bottles of your Compound and three packages of Sanative Wash to cure me. I can recommend them to all women suffering with complaints like these."—MRS. VANNATTA, 3827 N. Broad St., Philadelphia, Pa.

QUIETLY WEDS.

Marriage of Robert Douglass and Miss Ada Kleineges.

Accidents, Incidents and Personal Gossip Picked up Around the Railways and Shops.

The many friends of Mr. Robert F. Douglass, the assistant ticket agent of the Wabash railroad, in this city, will be surprised to learn of his marriage, which occurred last evening.

The bride is Miss Ada Caroline Kleineges, the charming daughter of Mrs. Henrietta Kleineges, of 153 Harrison street, the officiating minister being Rev. Lange, the pastor of the St. Paul Lutheran church.

After a wedding supper, the young couple left on the early evening train for Toledo and from there they took the steamer for a trip of the lakes. They will return to Toledo tomorrow evening, where they will be joined by Mr. and Mrs. J. H. Douglass, and the party will then go to Three Mile Bay, N. Y., to visit at the home of the mother of the Messrs. Douglass for a few days.

Leaving Three Mile Bay, Mr. and Mrs. Robert Douglass will take a trip down the St. Lawrence river, and, after visiting at Boston, New York and other eastern cities, will sail up the Hudson river and reach home early in September. They will reside at 399 South Calhoun street.

Few men are better known in railroad circles in this city than Mr. Douglass. He is popular with the company in whose employ he is and also popular with all who does business with him. In fact "Bob's" friends are numbered by his acquaintances, and while the marriage is an unexpected one to them (for "Bob" kept it very quiet) they will extend him and his fair bride their warmest congratulations and wish them long life and happiness.

ROBERT GARRETT'S MISTAKE.

An incident in the careeer of the late Robert Garrett illustrates the folly of mixing business with the pleasures of the festive board, and teaches a lesson on the necessity of keeping one's own counsel in a mixed company. When Mr. Garrett gained control of the affairs of the Baltimore and Ohio, after the death of his father, he at once began to scheme for the creation of a grand through line from New England and New York to the west. As the first step he looked to obtain possession of the Philadelphia, Wilmington and Baltimore, at the time the only line between Baltimore and Philadelphia. His negotiations with the owners of the road had proceeded to that point where he supposed he had a full option on its purchase Being in New York, he one evening joined a convivial party at dinner, and under the stimulus of the swiftly circulating bottle he confided to the jovial company the secret of his plans, including the fact of his option to purchase the Philadelphia, Wilmington and Baltimore. Among the guests at the table was a close friend of "Tom" Scott, then president of the Pennsylvania, who lost no time in communicating to that gentleman all that he had heard. The Pennsylvania magnate was not a person to permit a rival to gain any advantage through delay on his part, and when, a short time thereafter, Mr. Garrett went to Boston to close the deal for the Philadelphia, Wilmington and Baltimore, he found to his dismay that Mr. Scott had anticipated him. The road had been sold to the Pennsylvania for cash. This turn of affairs completely disconcerted Mr. Garrett, and changed the situation in railroad affairs in the east. It blocked the contemplated alliance between the Baltimore and Ohio, the Reading, the New Jersey Central and the New England roads, making the Pennsylvania the master of the situation, and eventually led to the collapse of the Reading and the failure of the Baltimore and Ohio. It was the beginning of the end of the career of the younger Garrett as a railroad king, and, together with the struggle with Jay Gould to prevent the absorption by the Western Union of the Baltimore and Ohio telegraph liner, no doubt was the cause of the mental break down of Mr. Garrett.

BRIEF MENTION.

Nickel Plate Engineer Charles Bromelmeyer is sick and off duty.

Trainmaster C. E. Wells, of the Wabash, was in the city last night.

Mr. and Mrs. B. D. Weyer have gone to Chicago to visit Mr. Weyer's brother.

Pittsburg engines 70 and 89 have left the shops after repairs and repainting.

H. Rohlman, a passenger car painter, has resumed work after an illness of a week.

Mr. Noyes, a manufacturer of lumber at Bay City, Mich , is in the city visiting relatives.

Henry Pohl, of the Pittsburg shops, is off duty on account of the sickness of his mother.

Engineer D. T. McFee has returned to his duties on the Nickel Plate after a week's vacation.

Henry Wiese, engineer at the City mills, is building a fine brick house on West Main street.

James Woodworth and J. Pauley, of the Pittsburg boiler shop, are fishing up the St. Joe river.

Nickel Plate Conductor John Hibbinger has moved into the house at 320 West Main street.

Master Mechanic F. A. Rider, of the Bass works, has returned from a business trip to Milwaukee.

James Besson resumed work this morning in the Pittsburg copper shop, after a few days' illness.

Manager A. D. Cressler, of the Kerr Murray works, left over the Wabash this morning for the east.

Sickness keeps William Blake confined to his room. He is a blacksmith employed at the Bass shops.

Arthur Reid, who has charge of the tool room at the Bass machine shop, has gone to Alba, Iowa, to visit his sister.

Nat Duke has been appointed general west bound traveling agent of the Nickel Plate line, with headquarters at Buffalo

J. N. Fournier, of the Pittsburg lumber yards, is off with an injured eye. He got a cinder in the optic a few days ago.

Charles Schmidt is at his desk again in the Pennsylvania shop office, after a pleasant visit with friends in Indianapolis and Chicago.

Jacob Ritter, a veteran machinist in the Pittsburg shops, is suffering from general debility and is off duty. Mr. Ritter is in the seventies.

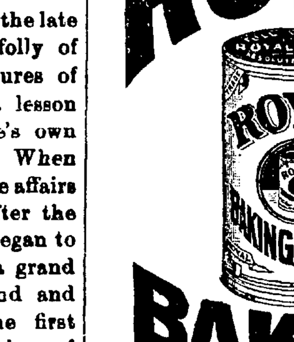

Amos Such, Henry Sinigan and John Gibson, employes of Rhinesmith & Simonson's lumber yards, are sick, having been nearly prostrated by the heat.

While working about a Pittsburg engine yesterday afternoon, Louis R. Buckwalter received an ugly wound on the nose, dangerously near the right eye.

Frank Carman, the Wabash engineer, has resigned to engage in the cigar business with T. C. Koch, who manufactures the "Arcade" and the "Cannon Ball."

The Wabash Niagara Falls excursion train will leave here on the evening of August 18, instead of the morning of that date, as erroneously stated yesterday.

D. F. Crawford has returned from a tour of Pennsylvania railway towns in the interest of the company. He reports business east about as it is here —dull.

Mrs. Fred Homeyer, wife of the organ factory employe, has returned from Milwaukee, where she visited the family of Deiedrick Homeyer three weeks.

Blacksmith Owen Barry, of the Pittsburg, will spend Sunday at Crestline, Ohio. Mrs. Barry has been in that city for over a week. She will return home with her husband.

Thomas McCann, an old railroad man who in former years ran an engine on the Wabash, is in the city visiting old friends. He has for twenty years past been located at Kansas City.

Reinking & Wolke, the contractors, have just completed a handsome residence on Nirdlinger avenue for Henry Klepper, of the Wabash boiler shop, who will remove there shortly with his family.

Conductor Sauer, of the Nickel Plate, who was visiting his brother at Bellevue, Ohio, has resumed charge of his train on the Nickel Plate. His wife and children have also returned home from the same city.

Trainmen from the south report a severe electrical storm at Richmond, Ind., and thereabouts this morning. The water came down in sheets, causing little streams to overflow in a few minutes, but no damage is reported.

It is probable that the Wabash shopmen will have their excursion to Detroit on the 22d inst. The pay car will arrive on the day previous to that date. The fare will be $1, making the excursion the cheapest one ever run out of this city.

E McLaughlin, who was injured two weeks ago, took his place again in the Pittsburg blacksmith shop this morning. Charley Barnes, Fred Starke, Will Hayes, James Burns and Frank Meyers are also working, after an absence for various reasons.

Bridge Carpenter Crawford Griswold returned from Eagle Lake this morning, where his family is located for the summer. He says there are more then the usual number of people at the resort this season, but there is danger of the place being depopulated by mosquitoes, which were never so large and plentiful.

The Financial Chronicle calls General Manager St. John, of the Seaboard Airline, a disturber of rates, and holds him responsible for all the troubles growing out of the rate war between his line and the Southern. It claims he pursued the same sort of tactics he is now following when general manager of the Rock Island.

The Chicago Rock Island and Pacific has taken off eight suburban trains between Chicago and Blue Island. It is said that this is on account of the competition of the Chicago and Northern Pacific, which, to meet the competition of electric lines, recently reduced the fare to a large number of suburban stations to one uniform rate of five cents.

To William Hagan, of 105 Butler street, is due the credit of raising the largest tomato ever produced in Allen county. This morning he plucked one from his vines which weighed exactly two pounds and six ounces and from outside appearances it was sound and perfect throughout. Mr Hagan is employed in the Fort Wayne Iron works.

It is stated that if all the locomotives used by the Pennsylvania Railroad company were stretched in one line, it would be over ten miles long. A locomotive would have to go around the world 1 800 times in a year to go as far as all these engines go in one year. To do this it would have to travel at a speed of eighty-three miles a second, or over sixteen times as fast as a cannon ball travels as it leaves the gun.

An understanding satisfactory to all concerned has been reached in the matter of the rates for the fire chiefs' meeting at Salt Lake City. A special reduced rate of $30 from Chicago and $27 from St. Louis will be granted only on the 6th, and steps are to be taken, through the machinery of the Western Passenger association, whereby the chairman will be given a description of every ticket sold, so that tickets purchased by brokers and transferred from the original purchaser will be refused for passage.

The movement of grain from points in western Kansas to the eastern markets has gained such proportions that some of the lines find it difficult to handle all the offerings. The Santa Fe is especially crowded with business, and is said to have about reached the limit of its capacity. The company had 325 cars of corn billed for New York Saturday, and sent out fourteen extra trains on the Chicago division that day. On the same day there were 425 car loads in the Argentine (Kan) yards awaiting shipment east.

Machinist W. S. Wells has completed a tour of the cities and towns in Northern and Central Indiana in the interest of a grand state meeting of the Royal Arcanum, which will be held at Maxinkuckee August 26. He says that if the weather is favorable on that date there will be over 5 000 members of the order present at the meeting. South Bend expects to furnish over 1,000 people for that occasion. Howard council, of this city, has arranged to run an excursion to Maxinkuckee on that date and tickets are now in the hands of the members for disposal.

Daniel Bevelhaimer, the watchman at the Broadway crossing of the Pennsylvania road, and a companion were egged last night by a party of hoodlums, who frequent the railways and steal rides to and from the junction west of town. The gentlemen were standing at the gate when the train passed and the lads threw three or four eggs at them. One of the missiles struck Mr. Bevelhaimer's friend on the forehead and spread its contents over his face and clothing. Another barely missed the watchman's head and spread itself over the side of his shanty.

NEW LIFE SAVING BOAT.

To Take the Place of a House Station, Harbor on the Vessel.

One of the most peculiar vessels ever built in American waters is the Boston bay floating life saving station, which has just been completed at Noank, Conn. There is nothing like her under the heavens. The mention of a life saving station suggests a salt stained building on a storm swept beach, with surf patrols and lifeboats. The new craft, however, is expected to prove even more useful than the surfmen, as she will lie offshore outside the line of breakers, and her crew will have the element of danger from surf removed from their work.

This station is the first of the kind ever constructed. The boat is 100 feet long, 33 feet wide and 6 feet deep. She is shaped much like an old fashioned flatiron, cut off square at the stern.

It is the "harbor" cut out of the main deck at the stern that makes the boat a curiosity. This opening cut into the stern is 80 feet long and 17 feet wide. It is surrounded by a walk 6 feet wide, upon which boats may be hauled. The upper deck extends the whole length of the boat, covering over the top of the harbor as well.

As the "station" will continually lie at her anchors and head to the wind, it follows that the egress and ingress of small boats from and into the harbor will be conducted in a sheltered place, and one of the dangerous and disagreeable features which life saving crews have hitherto had to put up with—the launching of boats through the surf—will be obviated. In this harbor will be moored two naphtha launches for the use of the life savers, and a surfboat will hang on davits near at hand.

As a whole, the craft looks something like a houseboat. She is built in a most durable manner, with a view of resisting any storm with which she may have to battle. She is heavily bulkheaded, and the main deck, which is ten feet above the level of the sea, contains abundant room for the crew of eight men and captain who will man the vessel. On this deck is a large pilothouse 7 feet high, which will be used as a lookout. There is abundant room for the comfort of the crew.

The station is fitted with anchors, but has no masts, machinery or steering gear. She has been 50 days under construction and is to be towed to Boston at once, where she will be stationed in Boston bay directly off Gity Point. Her cost was $7,000 exclusive of her furnishings, and she was designed by Assistant Superintendent of Construction Henry E. Davis of Palmer's yard.—New York Sun.

Peril In X Rays.

Dr. Markuse of Berlin, whose "interior" has been photographed 30 times within the past 20 days by the Roentgen process, has lost all of his hair as a result, and his face has assumed a brownish color.

The skin has peeled off his breast where the Hitorf instrument nearly touched it, and on his back what was first a sore finally developed into a bleeding wound, surrounded by burnt looking cuticle.—New York Journal.

Marvelous Results.

From a letter written by Rev. J. Gunderman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist church at Rives Junction, she was brought down with pneumonia, succeeding la grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at Dreier & Bro.'s Drug Store. Regular size, 50c and $1.00.

STRIKE ON ALL SEAS.

SEAMEN ARE ORGANIZING ALL OVER THE WORLD.

Preparing to Demand a Universal Wage Scale From Shipowners — Movement Started In England, but American Sailors Said to Favor the Idea Heartily.

A wage scale to govern the shipping interests of the world has been drawn up. If the shipowners fail to accept it, seamen say a strike will be declared which will be felt wherever men trust their lives to the decks of vessels.

The idea, having its origin among the English sailors, has gradually spread until now it has stanch supporters everywhere. American seamen are said to be in thorough accord with the movement.

It was the original intention to carry the agitation on quietly and to set a date when the effort should be made without attracting undue attention, but recent developments in London and vicinity, where the police interfered with a meeting that had been held for the purpose of organizing seamen, gave it more or less publicity, and the recent receipt of information regarding the movement in this country has made it a matter of common talk among sailors.

T. J. Elderkin, secretary of the International Seamen's union, with headquarters in Chicago, said that he had received several communications bearing on the subject, and that he believed American seamen would lend their support to the effort to introduce an international wage scale, one which would be recognized everywhere, and which, if in force, would do more than anything else to eliminate the nonunion man from the business of sailing and give the union a footing that no future happening could undermine.

While the union of which Mr. Elderkin is secretary is international in character, it does not extend over many of the European countries and is only designed to reach those seamen who cast anchor in this country. It is the intention of the promoters of the new movement to organize a union that will take in every man who has anything to do with the shipping business. This organization is to include firemen, sailors and dock laborers and will reach out a little farther and take in railroad men. Thus a brotherhood will be formed that, should a general strike take place, would completely paralyze the interests of transportation.

In England the movement is championed by such men as J. H. Wilson, M. P., who is at present president of the seamen's organization; Tom Mann, L. Johnson, and Richard McGhee, M. P. Already meetings have been held at Antwerp, London, Liverpool, Rotterdam and Glasgow, and it is claimed that as many as 25,000 men have been organized in a single day. Active work along this line has not begun in the United States as yet, but it is said that the Seamen's union of this country is in a position to take action on very short notice.

It is the purpose of the Englishmen to send representatives to this country to investigate the rate of wages paid in Chicago, New York, Cleveland, Buffalo, New Orleans and other ports, and these will be compared with those paid in English ports. It is then proposed to hold an international conference, at which the seamen of the United States are expected to be represented and at which the universal scale will be adopted.

As an inducement for seamen generally to take part in the proceedings of the international conference it is pointed out that with such an organization at command vessels which departed from one part of the world with nonunion crews could be intercepted at the point of destination and there made to feel the power of the union. It is, however, understood that the international organization would in no way interfere with the autonomy of organizations already in existence. In other words the International Seamen's union, which has its headquarters in Chicago, would continue to legislate for its members along its own lines, but always keeping in harmony with the laws of the other body.

Statistics are at present being gathered as to the approximate number of men that will be affected by the movement.—Chicago Record.

IN CLEVELAND'S NAME.

Novel and Successful Confidence Game Played In Kansas.

Federal detectives have arrested Henry Wells, an attorney of Girard, Kan., and Tom Hobson, also of that place, charged with complicity in a gigantic swindling scheme by which they and their confederates are said to have realized $60,000.

They are said to have operated in Kansas, Missouri and the Indian Territory, pretending to be personal representatives of President Cleveland, who, they said, proposed to buy a third term. This he would do by obtaining millions of dollars in canceled greenbacks from the United States treasury, putting from $2,000 to $4,000 in the hands of appointed agents.

These agents were to spend the money to buy support as they thought best, but must themselves put up $250 in cash as a guarantee of good faith.

The two prisoners were put in the federal prison at Fort Scott. Wells is a son of Judge T. W. Wells of Pittsburg, Kan.—New York World.

They Vie With Freaks.

The wide reputation which the "long" and the "short" men have obtained for themselves has made the office of Inspector Fitzpatrick of Chicago as much sought out by visitors to the city as the roof gardens and the drainage canal.

People from all over the United States are at the office early and late to see the "long" and the "short" men who ran Chicago for so many months, and the police officials could coin money by erecting a stage and charging an admission fee.—Chicago Tribune.

A New Eight Hour Movement.

At a meeting of the National Union of Carpenters and Joiners of Philadelphia it was resolved to demand on May 1 next an eight hour day at a scale of 35 cents an hour. The movement is said to be general.

WILL BUILD A HOTEL.

Dr. Younge to Erect One at Muncie, Ind.

(Muncie Herald.)

If all plans work to a nicety Muncie will have an elegant new hotel by the time the birds begin to sing next spring. Today there is a gentleman in Muncie who is anxious to organize a stock company for the purpose of erecting a first class hostelry, and to start the ball rolling he will take $10,000 worth of stock.

The gentleman in question is Dr. Younge, the eminent specialist, whose home is in Fort Wayne. The doctor has long cherished the idea of building a modern hotel in this city and today he called at the Herald office and stated that he had $10,000 to invest and would talk business with capitalists who would call on him.

Dr. Younge wants to erect a hotel that will be first class and modern in every respect and will cost several thousands of dollars. There is an opening for another hotel in Muncie and none is more fully aware of the fact than the doctor.

FACE RAW AND BLEEDING

My little boy was afflicted with Eczema in acute form for a year, during which we tried without success every known remedy. The disorder appeared on the right cheek and was of a blistery and bloody form. His pillow, mornings, would bear the bloody imprint of the side of his face, while it was impossible to prevent him from scratching his face owing to the itching. Advised to try CUTICURA, I bought a box. The first application was made at night, and it is a fact, that the appearance of the affected parts showed *a noticeable improvement the next morning*, and, continuing the treatment, as a result, my child has as fair and smooth skin as can be found anywhere.

The Hibernian Rifles will have a prize drill at Robison park some time during next month. The company will be divided and two squads will compete for the prizes. There will be fifty movements, on the basis of ten points to each movement. The commissioned officers of the local military companies will be the judges.

Fourteen hundred feet of stone walk is now being laid around the base of the reservoir by the direction of the waterworks trustees, and upon its completion the board of public works will beautify the surroundings. The board has already built a gravel walk and done considerable other work to make the spot attractive.

A man who gave his name as Forest, reported at the police station last evening that he had been relieved of his pocketbook, containing $10 and a gold ring His story was to the effect that he boarded a Grand Rapids and Indiana train yesterday evening at Sturgis, Mich., and a fellow took a seat with him and became very familiar.

The Fort Wayne Lithographing company, of which Wm. H. Scheimann is manager, has just added to its staff the following artists and craftsmen: George L. Miller, formerly of the engraving department of the Sherwood Lithographing company, Chicago; George Boelter, formerly of the Gugler Lithograph company, Milwaukee; W. H. Thompson, formerly of the Iowa Printing company. These gentlemen have all arrived and will make their homes here.

For This Afternoon.

Michigan Freestone Peaches $1 00 bushel basket; in fifth bushel baskets, 25c each.
Michigan Blackberries, 8c quart.
Nice Large Whortleberries, 7c quart.
Concord Grapes, 5c lb.
English Damsons, 7c quart.
Lombard Plume, 5c quart, or $1.25 bushel, including basket.
Ripe Tomatoes, 10c peck.

FRUIT HOUSE.

The '97 Sporting club had a meeting last evening.

Mr. and Mrs. Heffelfinger, of Butler, are in the city.

Misses Jennie and Nellie Lawson left today for Rome City.

J. H. King, a prominent merchant of Montpelier, is in the city today.

Mrs. Theodore Haberkorn has returned from Lake Maxinkuckee.

The McKinley club will hold a meeting at Vogley's hall tomorrow night.

Mr. and Mrs. S. R. Taylor went to Warsaw this morning to attend the musical convention.

Arthur Mears, formerly of this city, now conducts a bakery in one of the suburbs of Chicago.

Frank Mills and William Hibbens will leave shortly for northern Michigan on a fishing jaunt.

Rosa Eggemann left for Adams this noon, where she will visit her aunt, Mrs. Theo. Eggemann.

Wm. T. Haas, of South Wayne avenue, is making neat improvements to his home by adding a basement.

Archie Stout, formerly of this city, is now a stenographer in the office of the Derby Cycle Co., at Jackson, Mich.

W. H. Dreier, the druggist, arrived home this morning from Rome City where he spent a week with his family.

Miss Annie Sidle, who was the guest of Misses Nellie and Jennie Lawson, of Home avenue, has gone to Van Wert.

Miss Margaret E. Stemen, of Broadway, is in very poor health at Bremen, Ohio, where she went some time ago to visit relatives.

Gottlieb Haller and D. J. Shaw have opened a meat market at No. 94 Barr street, the place formerly occupied by E. Rich & Son.

Charles Miller has resigned his position in Gerberding & Miller's drug store. It is his intention to attend business college.

H. J. Remmert is making extensive improvements in his building at 160 Calhoun street. A new iron front will be placed therein.

Miss Annie Boyles, of Miner street, who has been the guest of her brother, Lucien Boyles, in Chicago, returned home last evening.

Misses Laura and Frances Muirhead, of South Calhoun street, are visiting at Andrews. The young ladies are teachers in the public schools.

Charles S. Bash has assumed control of the Bash Packing house and, it is said, intends to reorganize the company and extend the business.

Lieut. C. G. Pape, Lieut. C. Holman, Sergt. C. Engleking, Theodore Linderman, Privates F. W. Nahrwold, Fred Thiele, C. Borgman and H. Lentz are at Rome City camping.

A number of Fort Wayne people are taking treatment at Dr. Guyerson's Sylvan Lake sanitarium and among them is Frank P. Wilt's little boy, who is now receiving much benefit from the baths.

A party consisting of Dr. W. H. Myers and wife, Dr. E. J. McOscar and Dr. W. F. Schrader will go to Kendallville this evening to attend a musicale to be given at the residence of Dr. Gilbert.

A game of quoits, the first played at Robison park, came off yesterday between Ed Hartman and A. R. Hirons on one side and Oliver Hartman and Sydney Bennett on the other. Hartman and Hirons won.

John Kabisch, the Fairfield avenue barber, will leave in a few days for a short visit with his brother, Fred Kabisch and family, who are occupying a cottage at Rome City. He will be accompanied by his wife.

The Sunday school of the Evangelical society, of Portland, Ind., will run an excursion to Robison park on August 20. The excursion will start from Richmond and a large crowd is expected, as an unusually advantageous rate has been secured.

E. F. Lietman, the contractor, has just completed extensive improvements at the St. Joe hospital. An additional story, by which twenty-five more sick rooms are added, was the principal gain in the addition, and there is also a new operating room to this floor. An electric elevator is now being placed in the building. The improvements will cost $7,000.

The artesian well that will supply water for Robison park was finished yesterday. The well is 160 feet deep and is operated by electric machinery. It is the first instance in which an electric motor has been used for this purpose. The water tank holds 25,000 gallons and the water tower is 100 feet high. Robison park intends to keep in the lead in all things.

LEAGUE STANDING.

	Played.	Won.	Lost.	Per ct.
Toledo	15	11	4	.733
Youngstown	16	11	5	.688
New Castle	16	11	5	.688
Washington	15	7	8	.467
Wheeling	16	7	9	.438
Fort Wayne	14	5	9	.357
Saginaw	17	6	11	.353
Jackson	17	5	12	.294

Until the eighth inning yesterday it looked like a shut out for the visitors. They then bunched their hits, and assisted by errors of Lynch and Tebeau, got in five runs. Gilboy, left fielder, made things merrier than ever in the ninth by sending the ball over the fence. Fortunately for Fort Wayne no men were on bases at the time. Chris Weller umpired the game, and while he was a little off at times his decisions were plainly made without prejudice, and were satisfactory to both sides. The score was:

INNINGS.	1	2	3	4	5	6	7	8	9—	R.
Fort Wayne	3	1	0	0	0	0	5	0	0—	9
New Castle	0	0	0	0	0	0	0	5	1—	6

Hits—Fort Wayne, 12; New Castle, 10. Errors—Fort Wayne, 4; New Castle, 3. Earned runs—Fort Wayne, 3; New Castle, 1. Two base hits—Babb, Rickert, Gilboy, Whitehill and Donovan. Home run—Gilboy. Stolen bases—Babb, Tebeau, Rickert. First base on balls—Off Carrick, 1; off Hewitt, 3. Hit by pitched ball—Carrick, 1. Struck out—By Carrick, 5; by Hewitt, 1. Wild pitch—Carrick, 1. Double plays—Hewitt and Farrell. Umpire—Weller. Time of game—2:10.

NEW PLAYERS.

Fisher and Huff, two new players, will appear in today's game. Fisher will make his bow at second base and Huff will be behind the bat. They are both said to be fine players. Fisher has been making a good record in the Western league with the Peoria club, and the Fort Wayne management has been after him for some time. The positions of the players in both clubs today are as follows:

Fort Wayne—Fisher, 2 b., Grey, c.f., Babb, s. s., Tebeau, 1 b., Rickert, l. f., Huff, c., Lynch, 3 b., King, r. f., Swain, p.

New Castle—Gilboy, l. f., Whitehell, 2 b., Farrell, s. s., Ganzel, 1 b., Sullivan, 3 b., Daniels, c. f., Donovan, c., Provine, r. f., Hickman, p.

NEW UMPIRE.

Frank S. Haller, a base ball player, arrived in the city this morning from Pittsburg, having been assigned by President Powers to umpire the balance of the present series in this city. He will umpire today's game.

OTHER INTER STATE GAMES.

SAGINAW, Mich., Aug. 6.—The locals took a well contested game from Youngstown at Union park yesterday afternoon. Youngstown played fast ball, but made several costly errors. The home team played steadily and assisted by Miller's fine work held the visitors down to two runs. Score:

INNINGS.	1	2	3	4	5	6	7	8	9	R
Saginaw	0	0	1	1	0	1	0	0	0—	3
Youngstown	1	0	0	1	0	0	0	0	0—	2

Hits—Youngstown, 9; Saginaw, 9 Errors—Youngstown, 4; Saginaw, 1. Batteries—Miller and Northwang; Brodie and Zinram.

JACKSON, Mich., Aug. 6.—A scrappy game was played yesterday and won by Jackson with the stick. Hardesty's work at second was extraordinary. Score:

INNINGS.	1	2	3	4	5	6	7	8	9	R
Jackson	0	0	1	2	2	0	0	4	1—	10
Wheeling	0	0	0	1	1	3	2	0	0—	7

Hits—Jackson, 16; Wheeling, 10 Errors—Jackson, 6; Wheeling, 7. Batteries—Engle and Corcoran; Garvey and Shaw.

TOLEDO, Ohio, Aug. 6.—Ferguson thoroughly retrieved himself yesterday for Tuesday's failure and showed himself to be a wonder. Score:

INNINGS.	1	2	3	4	5	6	7	8	9	R
Toledo	0	0	0	1	2	0	0	7	0—	10
Washington	0	0	0	0	0	0	0	0	0—	0

Hits—Toledo, 11; Washington, 1. Errors—Toledo, 2; Washington, 3. Batteries—Ferguson and Arthur; Dinsmore and Mitchell.

NOTES.

Fort Wayne got twelve hits off of Hewitt. The boys had on their batting clothes yesterday.

Carrick was in good form and used splendid judgment at the critical times when bases were full.

The Louisvilles have lost twenty-five games by one run this season. Some justification for a hard luck story there.

Second Baseman Whitehall made a difficult stop of a hot grounder and threw to second, retiring a base runner. It was a pretty play.

Quinn caught an errorless game. His star play was throwing Gilboy, the crack base runner for the New Castle team, out at second.

There is said to be a phenomenal pitcher at Washington, Ind., by the name of Knifler. In a recent game he struck out eighteen Evansville players.

The Daily Kindergarten tells about Center Fielder Gray, of the Fort Wayne team, having a brother in Harvard college for whose education he pays. As usual, wrong again. Gray has no brother at Harvard.

Frank Torreyson, ex manager of the Toledo team, is negotiating with the owners of the Saginaw team and will likely take the management of it. Torreyson is a manager from the word go, and will make something out of the tail-enders.

Wheeling News: "The success of base ball statesmanship lies in keeping your mouth shut. If certain managers would take warning Polonius by giving every one their ears and no one their tongues, they would fare better financially and in divers other ways."

Manager Delaplaine, of the Wheeling team, thinks the Toledo fans are too noisy. He says there is a big difference between legitimate rooting and blackguardism. "In no other city," said he, "have I heard such blackguardism as comes from the grand stand there."

A special from New Castle says: 'New Castle will protest against Ferguson, whom Toledo is claiming, from being in any game with the latter club. Ferguson is claimed by New Castle. He was formerly a pitcher in the Pacific Slope league, which went under recently, and as soon as it was known that league would not last the local management secured from Ferguson an acceptance of terms and an agreement from him to come to this city. He was expected to report at either Jackson or Saginaw, and if he puts in an appearance at Toledo there will be a protest entered."

WAR IN SPAIN

May Result From Cuban Troubles.

The Insurgents Succeed in Interesting the People,

And Several Riots Have Occurred in Some of the Provinces of the Spanish Country.

MADRID, Aug. 6.—Trouble of a serious nature is being fomented in Spain, particularly in the province of Valencia, by agents of the Cuban insurgents. The minister of the interior, Senor Cosh Gayon, yesterday, replying to a question in the chamber of deputies, admitted that a number of riots had occurred in Valencia, and when asked to explain the cause of the disturbances, said that they were caused by friends of the Cuban insurgents who hoped thereby to prevent the departure of further reinforcements of troops for Cuba.

Hitherto the popular demonstrations have been attributed entirely to protests against the imposition of new taxes, a step made necessary by the financial strain the government has been subjected to through carrying on the campaign against the insurgents of Cuba. But, while the government is only willing to admit that the riots have been instigated by the agents of the Cuba revolutionists, it is generally admitted that the roots of the trouble are much deeper and that it is being nourished by the natural feeling of alarm and dismay at the apparent utter inability of the government to cope with the situation in Cuba.

That the large Spanish army in Cuba must be still further and heavily reinforced is looked upon here as being a confession of failure upon the part of the administration and as an admission of the growing strength of the Cubans. In addition, many letters have been received in different parts of Spain by the relatives of Spanish soldiers serving with the army in Cuba and they tell such terrible tales of sickness, privation, incompetency and mismanagement, to say nothing of lack of pay, that a dangerous feeling against the government has arisen and is gaining strength day by day.

Under these circumstances the agents of the Cubans do not have much difficulty in carrying out their plan of causing popular outbreaks. They steadily fan the flame of discontent by pointing to the apparently unnecessary hardships which the Spanish troops in Cuba are compelled to endure. The republicans, also are taking advantage of the situation to push their propoganda and the combined movements making more headway with the masses than the government will admit, although it is already betraying symptoms of alarm and has sent stringent instructions to the prefects to promptly and effectually suppress demonstrations which may occur in their district and to have no hesitation in calling upon the military for support.

A number of conflicts between rioters and the police and soldiers have already occurred, shots have been exchanged, several persons have been wounded on both sides and a large number of arrests have been made. This, the revolutionists assert, will serve to call attention to their cause and enlist in their behalf the sympathy of the people. The roads in Valencia are being patrolled by gendarms, troops are pursuing armed bands of revolutionists in the mountainous districts of the same province and further trouble is apprehended. Madrid, up to the present, has been quiet, but signs are not wanting that the spirit of discontent is abroad and that the efforts of the government to gain support by trying to throw the blame for everything upon the United States, the chief bugaboo of Spanish politicians, will not much longer avail.

In a factory near the city of Valencia the authorities have discovered a quantity of arms and ammunition and similar stores are believed to be in existence in different parts of the province. The arms referred to are known to have been smuggled into Spain very recently and are not of foreign manufacture, showing their shipment to be part of the plan of campaign being conducted by the Cubans in Spain.

The Spanish officials, as usual, are blaming the United States for the troubles in this country, basing the assertions made on the fact that among the leaders of the recent riots was Dr. Bernando Toledo, said to be an American citizen whose brother is in command of a force of Cuban insurgents. It is claimed that money, arms and ammunition were served out to the rioters from the house which he occupied and a search of the building is said to have resulted in the discovery of a number of letters from the United States, Cuba and Argentine Republic, showing that the outbreaks here have been planned by the leaders of the Cuban insurgents and that the movement is widespread and capable of assuming most serious proportions.

Among other features of the situation here is the effort being made in certain quarters to arouse the masses against the Protestants, all Americans being classed as Protestants, and to them, as already stated, being attributed Spain's reverses in Cuba and the growing insurrection here. The Cuban agents, however, are doing everything possible to counteract this movement and are urging the people to place the blame for the excessive taxation, the military blundering and the political bluster where it really belongs, upon the shoulders of the Spanish government, and not to be misled by such foolish inventions as the statement originating from semi official sources and for a time pretty generally believed, that agents of the United States government were overbidding the agents of Spain wherever the latter tried to purchase warships for the Spanish government.

INTENSE EXCITEMENT.

In a Mining Camp Near Noblesville, Ind.

Fanaticism Characterizes the Actions of the Leaders—Troubles Arise and Arrests Are Made.

NELSONVILLE, Ohio, Aug. 6.—New Pittsburg, a mining camp a few miles from this city, is the scene of the most intense excitement, bordering upon fanaticism. The leaders claim to be in personal communication with the Lord and act under instructions from him. Excitement is so high that familes have been broken up and numerous fights have occurred over the matter. The authorities have tried every way to get rid of the fanatics, but failed. Warrants were sworn out today for the arrest of the leaders, Mart Searles and his two brothers, and when arraigned before the justice they were furious and denounced the court in most bitter terms and insulting the justice in the highest manner, even climbing upon the desk and spitting upon him. The trio were finally placed in jail and Mart was taken to the Athens asylum. The others will surely follow. Their followers number about 150, some of whom have given as high as $150 each upon being converted. The more conservative people predict that the trouble will end in bloodshed.

SUNSTRUCK!

W. H. Lepper is in a Serious Condition.

While Working on a Tannery Building in Nebraska, He is Stricken Down.

While working on the new tannery building in Nebraska today, shortly after noon, W. H. Lepper, a carpenter, suffered a sun stroke.

He was taken to the St. Joseph hospital in the patrol wagon and is now in a very serious condition. He was unconscious for some time.

Mr. Lepper resides on Dallas avenue. He is attended by Dr. G. B. Stemen.

MILITIAMAN SHOT.

As a Result of the Difficulties at Cleveland.

CLEVELAND, Ohio, Aug. 6.—A militiaman was shot on Luther street, in the east end early this morning. Between midnight and 1 o'clock a crowd made a sudden attack on a building where a man named Johnson, who is employed at the Brown Hoisting works, lives. They broke in the windows and yelled liked Indians. The soldiers heard the disturbance and rushed to the scene. Part of the crowd scattered, but a dozen men stood at bay with revolvers and shot at the militiamen. The soldiers replied with rifle balls and then the men scattered. In the melee Private Perkins, of Company "B," was shot, but it is not known how seriously. He was taken away in an ambulance. The official statement at Colonel Whitney's headquarters is that Perkins was accidentally shot while loading his revolver. It is claimed by others, however, that he was wounded in the Luther street skirmish.

ROME CITY.

The Program at Island Park Assembly.

ROME CITY, Aug. 6, 1896.

The Uniform Rank, K. P., of Kalamazoo, Mich., gave an exhibition drill yesterday at Island Park assembly, which was of a very high order, after which Burrett Hamilton, of Sturgis, Mich., presented them with a stand of colors. Knights from Sturgis were here 100 strong, carrying tri-colored umbrellas, and giving the K. P. large delegations. The addresses were more than up to the standard, especially the ones given by Supreme Vice Chuncellor Charles Colgrove and Burret Hamilton. Tomorrow is C. L. S. C. day Bishop Becker and Rev. G. M. Brown are to occupy the platform. The assembly this year has exceeded the most enthusiastic expectations, so far as patronage is concerned.

THEY'LL BE THERE.

The Presidential Candidates at Topeka.

TOPEKA, Kas., Aug. 6.—All the candidates for president and vice president will attend the old soldiers' reunion at Topeka the last week in September. Acceptances have been received from McKinley and Bryan and Garrett. Hobart has written he would be here. Invitations have been sent to Tom Watson and Arthur Sewall and the populists and democrats pledge that they will both be here.

A San Jose, Cal., paper says: "The first carload of green fruit was shipped from San Jose yesterday under the carbonic acid gas preserving process. This car has been carefully fitted up under the supervision and instructions of August Bowser, of Fort Wayne, Ind. Mr. Bowser will accompany the car east to Chicago, where it will be placed on sale in competition with fruit shipped under refrigeration with ice.

FAIR WILL CASE.

The Greatest of All Cases is On at Last.

After a Weary Seige of Legal Bickering the Twenty Million Dollar Suit Commences.

SAN FRANCISCO, Aug. 6.—After many months of skirmishing and sparring for position among the army of attorneys involved, order has been finally secured in the Fair litigation and the trial of one of the greatest will contests in the history of the United States is now at hand. By an order issued by Judge Slack yesterday the merits of the so called pencil will, the document produced by Mrs. Nettie R Craven as the last testamentary disposition by Millionaire James G. Fair of his millions of money and property, is to be decided at once and legal bickering on the part of the lawyers will give way to a determination of questions of fact and issue. Fair has been dead almost two years, but it was not until today that a definite move in the complicated legal fight was made. There have been motions and counter motions, demurrers and cross complaints, and all the other endless tactics for which law and lawyers are famous.

Some twenty millions are involved in this, the biggest law suit of California, and almost as many endeavors have been made to postpone the final trial of the case. A will has been stolen from under the very nose of the court clerks and a second will filed. A widow has arisen by virtue of assertion that she was married by contract to the mining king, to claim a million and a half dollars of his property and has filed deeds to substantiate her claim. Charles L. Fair has disputed Mrs. Craven's claims. George A. Knight thinks he can win a case for his client and disable Mrs. Craven and her claims in sixty days. But others doubt Knights ability to settle the question so quickly.

MAYOR PINGREE

Nominated for Governor by Michigan Republicans.

M. D. Frank Will Lead the Democratic Forces of Maine—Wisconsin Convention.

GRAND RAPIDS, Mich., Aug. 6.—The second day's session of the republican state convention was called to order at 10 o'clock this morning. The motion to divide the St. Clair county, giving Bliss and Pingree each eleven votes, was adopted by a large majority. A number of seconding speeches were then made and the convention proceeded to take a ballot for governor. The first ballot resulted: Pingree, 339; Bliss, 286; O'Donnell, 83; Wheeler, 47; Conant, 22; Aitkin, 56. Necessary to choice, 417.

On the second ballot Pingree had 358; Bliss, 297.

On the third Pingree was but twelve votes short of a majority and he was nominated on the fourth ballot amid tremendous enthusiasm.

WATERVILLE, Maine, Aug. 6.—M. D. Frank, of Portland, was nominated for governor of Maine at the state democratic convention this afternoon.

MILWAUKEE, Wis., Aug. 6.—The republican state convention reconvened at 10:18 this morning, when the roll call of districts was resumed for seconding speeches. During the progress of the call for seconding speeches Senator Thurston was introduced and made a brief address. The senator, who is a Wisconsin man, was tendered an ovation by the delegates.

DUEL WITH KNIVES.

One Man Dead and the Other Dying.

Became Involved in a Fight Through Discussion of a Neighborhood Protracted Meeting.

GREENVILLE, Ky., Aug. 6.—Yesterday afternoon two farmers, Tom Hall and Terry James, became involved in a difficulty over a discussion about a protracted meeting held in the neighborhood. They came to blows and both pulled their knives. Terry James was stabbed five times and died this morning. Hall is cut in seven different places and cannot live through the day. The men fought in the broiling hot sun and were alone when the fight occurred, no witnesses being present.

MILLIONAIRE ROBBED.

He Was Kept a Prisoner for Two Days.

SAN FRANCISCO, Aug. 6.—James A. Campbell, a Honolulu millionaire, who disappeared last Monday, returned last night with a bullet hole through his hat and an exciting tale about an adventure with robbers. Campbell says that while he was drinking in a private room in a saloon he was confronted by two masked men who demanded money. The millionaire refused the demand and in the fight that followed a bullet went through his hat and Campbell says he was robbed and kept a prisoner for two days. When released last night he was given a nickel for car fare.

DISCOURAGING OUTLOOK

For Farmers and Business Men in West Virginia.

PARKERSBURG, W. Va., Aug. 6.—The crop bulletin issued by the state weather bureau gives a discouraging outlook for farmers and business men depending on them. It gives a report by counties of the damage by the recent cloud bursts, high waters, etc. Great damage was done in northern counties and to the valley. Wheat and oats are sprouting in the stacks and potatoes are rotting in the ground. In Randolph county alone, the damage is estimated at $100,000 to the farmers. Fields of corn and gardens were washed away.

FACTS AND FIGURES.

School Board Files Its Annual Report of Finances.

The Amount Paid Out in a Year From the Special and Tuition Funds.

The annual report of the board of school trustees for the city of Fort Wayne has been filed with the county commissioners. By going over the figures the reader can learn just what it has cost to conduct the schools for the year ending last July.

SPECIAL FUND.

The receipts of the special fund were as follows: Balance on hand from last year, $29,931 68; received from county treasurer, special school tax, $38,633 69; from sale of old furniture, etc., $91.56; from displaced books, old books, etc., $171 88; contingent fund returned by John S. Irwin, $17 66; sale of old paper, $5 90. Total, $68,852 37.

The expenditures of the special fund for all purposes, except tuition, amounted to $32,548 04; balance now on hand, $36,304 33.

TUITION FUND.

The receipts of the tuition fund were as follows: Balance from last year, $32,438 30; received from county treasurer for liquor licenses, $11,293 10; from state fund, $20,270 52; from state apportionment, $18,062.33, from supplementary tuition tax, $12,186.22; other sources, $1,684.78; total receipts, $95,935 25.

The expenditures for this department amounted to $62,439 65, leaving a balance of $33,495 60.

The tuition fund can be drawn from only for teachers' salaries, while the special fund is used for the maintenance of the schools, repairs, new buildings, furniture, etc.

Thus it will be seen the trustees have on hand $33,495 60 with which to pay teachers up to January 1, and $36,304.33 for the other expenses for the same period. From the latter amount must come the payment for the two new school buildings now under way and the equipment of the same.

Next January the county treasurer will turn over to the trustees the half yearly installment for 1897.

KANSAS POPS

Put Senator Leedy at the Head.

They Endorse the St. Louis Platform and Bryan and Watson.

ABILENE, Kan., Aug. 6.—The nomination of Senator Leedy for governor at 2 o'clock this morning left the delegates to the populist convention in a mood for quick work today and they began at 9 o'clock.

United States Senator Pfeffer opened the session with an address advocating the fusion of anti-silver forces on a basis of votes cast for all offices. The convention quickly got down to the consideration of the resolution committees' report, and without much ado the report was adopted as presented. The resolutions endorse the St. Louis platform and Bryan and Watson; they congratulate Kansas that since the populists have been in politics many good laws have been secured; condemn the republican house of representatives for failing to pass bills sent from the populist senate; demand that the officers carry out the will of the people; that the attorney general enforce the statutes limiting corporations to the business named in their charters, and that railroads shall do no other business than common carriers; condemns favoritism to shippers by railroads; favors a maximum freight law; demands restoration of convict labor; demands the reduction of public sanitaries; demands that the supreme court, in justice to the people, clear its docket.

THIRTY DAY SUSPENSION

No More Trading on 'Change for a Month.

The Moore Brothers' Failure and Fears of a General Panic Are the Causes.

CHICAGO, Aug. 6.—It is reported on excellent authority that trading in the account on the Chicago stock exchange will be suspended for thirty days after the exchange shall have opened. It is also probable that the deals in future options will be limited to a week or ten days. All this has been caused by the Moore Bros.' collapse. No one knows, that is, no one save the special committee appointed to arrange a settlement of the Diamond Match and New York Biscuit deals of the Moore Bros.' when the stock exchange will resume active business. The room traders and many others have begun to make loud complaints against what they call the "arbitrary action" of the governing board in closing the exchange. They claim it is done to protect a favored few and that it does the majority of dealers great injury. It is said the Moore Bros.' and the special committee from the stock exchange will finish their labors before tomorrow night and make a statement as to the financial standing of the firm.

Summit City lodge F. and A. M. will meet tomorrow evening, and will elect a junior warden.

NOTABLE CAREER.

Death of Mrs. Amelia Hicks-Lord at New York.

Twice Married to Wealthy Merchants. She Survives Both and Leaves an Estate of $3,000,000.

NEW YORK, Aug. 6.—Mrs. Annette Hicks Lord, who was in her day one of the most notable figures in New York society, died at her residence in this city last night, aged sixty-seven years.

Mrs. Hicks-Lord was descended on her mother's side from a titled English family and was related to General Robert Schenck, once United States minister to Great Britain. Her father, Unico Peter Wilkins, married Adeline Schenck, whose family had a great deal of property on the Fishkill river. The couple went to Guiana and there Annette was born. Subsequently the Wilkins family returned to this state, making their home at Matteawon, where Annette grew to womanhood.

At twenty-five she was married to Thomas Hicks, a wealthy merchant of twice as many years as her own. Her marriage settlement included considerable property at Toledo, Ohio, and elsewhere, which, when Mr. Hicks failed a few years later, gave his wife an income sufficient for the maintenance of both until the husband died. The widow's fortune was increased by inheritances from relatives in Holland, so that she was able to entertain most lavishly, her receptions being among the most noteworthy of the period in New York.

Then the widowed Mrs. Hicks went to England and as a relative of the United States minister was presented to Queen Victoria. She set up an establishment in London, which was as celebrated in its way as had been her New York home. Admiral Alden, U. S. N., gave her the unusual distinction of taking her on board the flagship of the Mediterranean squadron to Alexandria and thence on board the frigate Wachusett to Jopha. Thence she proceeded to Jerusalem with an escort of sixty United States sailors. On the return to Alexandria the Wachusett tried to enter the port of Alexandria in the night without a pilot and had a hole knocked in her bottom.

After Mrs. Hicks had returned to America Thomas Lord, an octogenarian dry goods merchant with a fortune of $6,000,000, paid suit to her, but she refused him and went to Europe for a season. Her absence did not cool Mr. Lord's ardor, and he renewed his suit with better success. When she came back to New York in 1877, they were married.

The six children of Mr. Lord thereupon obtained a writ of de lunatico inquiredo and sought to have the marriage set aside on the ground of the mental incapacity of Mr. Lord. The couple, however, so completely secluded themselves in the wife's home in Fourteenth street that for months detectives were unable to reach them.

The fight of the younger Lords was finally abandoned. A year later Mr. Lord died, and after a proper season of mourning, his widow re-entered society, her entertainments taking on even greater magnificence than those of her earlier career. Recently her health failed and she traveled extensively. She also devoted much of her thoughts and money to religion. A few years ago her fortune was estimated at $3,000,000, not taking into account magnificent collections of plate, rubies and cameos.

LABOR DAY.

Big Holiday of the Craftsmen to be Held Here.

Splendid Program to be Arranged—Reduced Rates Secured on All Railroads.

Last evening a committee consisting of John Koch, G. R Henck, L. C. Kasten, Isidore Friend and Mrs. Gorsline held a meeting for the purpose of making arrangements for a Labor day celebration in this city. This committee was appointed by the Trades and Labor council, which organization has the matter officially in hand.

Labor day, a legal holiday in Indiana and many other states, made so through the efforts of organized labor, falls upon the first Monday in September.

The committee which met last night decided to use their best efforts toward making the day in Fort Wayne a grand gala event that will attract many visitors to the city, and to assist them the railroads will offer reduced fares. A speaker of national reputation will be secured, and he will be a man well posted upon the topic of labor. Athletic games and sports of various kinds will be on the program.

There will be no parade, as the day's festivities will be held at Robison park.

GEORGE DUNLAP MISSING.

Remaining Heirs Will Divide the Estate Without Waiting.

TERRE HAUTE, Ind., Aug. 6.—After ten years of absence, George Smith Dunlap, heir of the late Andrew Dunlap, of Sugar Creek township, cannot be found, and his share in the estate, amounting to about $25,000, is about to be confiscated by the remaining five heirs. The law provides that if one is gone for five years without any information whatever as to the person's whereabouts, he may be considered as dead and his property diverted to the next nearest heirs. The deceased's will cuts off Thomas Dunlap, of this city, with but $3, but, according to an agreement reached yesterday, he will receive a full share with the rest.

Andrew Dunlap was one of the wealthiest residents of the county. Yesterday a daughter produced $12,000 in government bonds as part of the assets of the estate. The coupons had not been clipped since 1892.

THEY ARE FAST ONES.

The Horses Entered for Next Week's Races.

A Visit at the Driving Park Shows Nearly Sixty Horses There Now Under Training.

Those who have an idea that "following the horses" is one continual round of pleasure, could have had their minds completely disabused had they accompanied THE SENTINEL man to the Driving park last night, about 9 o'clock. There are now about fifty or sixty horses and almost the same number of men "quartered there" getting ready for next week's races.

Between the intense heat and the myriads of mosquitoes which infest the quarters, the poor swipes had a sorry time of it. This morning the mosquitoes laid off to be ready for business tonight, but old Sol got in his work in beautiful shape. The horses were out on the track, though, and as this is the kind of weather that makes fast time, there will be some mighty fast going next week if the weather is at all propitious.

Frank Gruber had his flyer out and was to have met Charlie McDougall's Razor Blade in a friendly heat, but as McDougall failed to show up Frank was obliged to speed alone and showed the last half mile at a :211 clip.

Among the well known stables that are already represented on the grounds are:

Oakwood Stock farm, of Prairie View, Ill., with a string of six. Sandy Boy, with a record of 2:14½, is at the head of the list, but there are some other speedy ones there besides.

Centlivre Bros. have Atlantic King, Nydia, Frank Bogash, Major Centlivre, Dr. Morrow, Emily W. and others in daily training and Rockhill Bros and Fleming and W. D. Bash are likewise represented.

Scott McCoy is handling half a dozen good ones, not the least of which is J. H. L., the Omaha horse, who will try issues in the 2:09 pace on Friday.

W. P. Ijams, the leader of the Terre Haute syndicate, has a large stable, and C. W. Williams, of Galesburg, Ill., has half a dozen on the grounds.

The Village Stock farm, of Aurora, N. Y., will be in on Saturday night, and on Sunday the Columbus, Ohio, races will contribute a large contingent.

Secretary Rockhill says the entry list is the finest ever booked for an Indiana race and all that is required now is favorable weather to make the meeting the most successful ever held in this city.

The Texas stables of Paris, Texas, have a colt entered in the two year old pace Monday named Claude Cour. The original Claude Cour is a Fort Wayne boy now located at Dallas, Texas, who for a number of years has been secretary of the Texas state fair association.

Miss Jennings, the Buffalo wonder, will be seen in the 2:14 and the 2:20 pace. She is a corker and one of the phenoms of the year.

Dandy Jim, that villainous gray, will start in the 2:09 trot on Wednesday. Jim is all right after the word is given, but he is capable of provoking more profanity among Christian gentlemen than any other piece of horse flesh in the ring.

Major Centlivre will be in fast company in the 2:12 pace next Thursday. He will have to shake his heels pretty lively to keep out of the dust of Hustler Russel, Sphinxette, Capt. Crouch, Sandy Boy, Josie B. and several others in that class.

Monday's races will probably not be as fast as some others, but they will be just as interesting. Keep an eye on the 2:20 trot—it will be a lulu. Lulus come only once in the game.

THE COURTS.

But Little of Interest is Taking Place.

Richard Sithens has commenced suit in the superior court against John Telgmann and others on note and mortgage for $500. P. W. Schaden is attorney for plaintiff.

Lillie B. Hendler has asked the superior court to grant her a divorce from John Hendler with alimony. W. G. Colerick is attorney for plaintiff.

The trial of the suit of Jacobs vs. Robertson was brought to an end in the circuit court yesterday afternoon. The case has consumed much time. Judge Comstock, of Richmond, who presided as special judge, will hold his verdict under advisement for a while.

The following city real estate transfers have been recorded: Anna and H. S Buckley to Citizens' Loan and Insurance company, lots 11 and 12 Ewing's grove, $2,100. William Engelking to Sophia Engelking, part of lot 1, Gerken's addition, $1. Henry and Anna Engelking to Sophia Engelking, lot 1, Gerken's addition, $105. W. H. H. Miller to Sarrah J. Hough, undivided one half of west twenty feet of lot 111, Old Plat, $6,500.

Less Than Manufacturers' Cost.

Owing to the failure of the Wheelock Piano Co., I have been compelled to discontinue the agency for these valuable instruments. Having but two of them in stock, we will close them out at less than their value. Call and see. G. CONKLIN, 31 E Berry.

TWO DROWNED!

Jimmie Hawkins and Harry Lease,

While Crossing Spy Run Stream,

Sink to Their Death Before the Eyes of Their Companions.

Details of a Shocking Accident, Whereby Two Boys Are Swept to Eternity Without Warning.

Dreadful affliction and deep sorrow was visited upon the homes of two of our respected citizens today.

Two lads, Jimmie Hawkins and Harry Lease, who left their mother's presence, full of life and boyish happiness this morning, lie dead in the morgue of Funeral Director Peltier as THE SENTINEL goes to press this afternoon.

The bereaved parents are Edward Hawkins, the well known cigarmaker, residing at the corner of Broadway and Jefferson streets, and A. L. Lease, a brakeman on the Grand Rapids and Indiana railroad, living at 101 Madison street.

The boys were cousins. Both were allured to the jail flats by the circus which has its tents pitched there and at that place they met about 9 o'clock this morning. Naturally enough, they remained together, playing about the show grounds and the vicinity of the river until noon when they started to go home by the way of Spy Run avenue.

Crossing the Clinton street bridge near the city crematory they followed the north bank of St. Mary's river to Spy run. This stream is about twenty-five feet wide and empties into the river at this point. No bridge spans it, but there has been built here what is called a "blind bridge," under water, a structure used only for wagons hauling gravel from the river bank. At this point they were joined by two Pieper boys, who live on West Jefferson street.

The Hawkins and Lease lads started to cross the dangerous blind bridge and were about half way across when Hawkins slipped and fell into the water, which was fully fifteen feet deep, on account of dredging which had been going on. The boy had hardly disappeared when young Lease also fell in. The Pieper boys had remained on the bank and now stood aghast at the struggle of the poor little fellows, who it seems could not swim.

Panic stricken the Piepers ran away from the spot to seek assistance. They quickly notified the men at the electric power station, near by, and William Rockey, one of the employes, hurried to the scene of the accident, but too late, for the boys had gone down for the last time.

With great courage Rockey hastily dived for the bodies, and, although he persevered until almost exhausted, it was sometime after the accident when he secured both bodies.

The two little corpses were stretched on the bank when a SENTINEL reporter reached the scene. Jimmie Hawkins was nine years old, and the only child. Harry Lease was eight years old. Both were bright and promising lads, whose sudden fate will be cause for a widespread expression of sympathy to the parents and families, whose cup of sorrow is now filled to overflowing.

The bodies were taken to Peltier's and will be removed to the homes of the parents this evening.

Edward Hawkins, father of one of the boys, was a former employe in the Trentman cigar manufactory, but lately got out of work and went to Toledo, where he is now working. The sad news was wired to him this afternoon.

Card of Thanks.

We desire through the columns of THE SENTINEL to express our unbounded gratitude to our countless friends that so kindly assisted us in our recent bereavement. Our thanks are especially due to the Hibernian Rifles for the respect they paid the deceased and family by their appearance at the house in a uniformed body. Our sincerest wish is that the angel of death may not soon darken their homes.

MR. AND MRS. JOHN NOLAN AND FAMILY.

William J. Leader has invented a garbage box which proves to be quite a departure from the usual order of receptacles of this kind. It is announced to be the best box ever shown in the city. Mr. Leader will try to have the board of health adopt it.

BOLT THE TICKET.

Fort Wayne Gold Democrats Hold a Meeting.

Pass Resolutions and Will Send Delegates to the Convention at Indianapolis.

Twelve democrats who are opposed to the free coinage of silver, which is one of the principles announced in the democratic national platform and the leading issue in the campaign this year, met at the law office of Perry A. Randall last night to give an expression of their sentiments regarding an independent democratic ticket.

Ex-Senator J. D. Sarnighausen, editor of the Staatz Zeitung, one of the democratic German daily newspapers of this city, was selected as chairman of the meeting, and Samuel M. Foster was chosen secretary. After some discussion, the following resolutions were offered and unanimously adopted:

"Resolved, That it is the sense of this meeting that the integrity of the democratic party and the welfare of the whole country demands that a national convention be called at which such action may be taken as shall give expression to democratic principles and furnish to the voters candidates who shall represent these principles."

A committee was appointed to go to Indianapolis Friday, August 7, to represent the gold standard democrats of Fort Wayne in the provisional convention to be held in that city. S. M. Foster was made chairman of the Indianapolis committee and associated with him are H. C. Berghoff and John F. Rodabaugh.

Among those who were present at the meeting were J. F. W. Meyer, ex-Senator Sarnighausen, Hon. S. M. Foster, P. A Randall, A. E. Hoffman, R. L. Romy, Hubert Berghoff, Charles Falk, T. W. Wilson, Judge S. R. Alden, Will Tigar, A. A. Furman. A letter of regret was received from Hon. P. S. O'Rourke, and it was stated that Hon. Charles McCulloch was also in full sympathy with the object of the meeting. Henry Berghoff was unable to be present on account of absence from the city.

OUR base ball club remains near the tail end.

IT will be a pretty hot night to make a political speech, and yet Judge Taylor is going to make one this evening at the Masonic Temple.

THIS would be a good time to look for the north pole.

LAWN socials are in the heighth of of their glory just now.

THE democratic majority in Alabama has now got up to 50,000.

THE gold standard democrats are not very numerous in Fort Wayne.

ROBSON park is a favored resort these hot summer afternoons and evenings.

WEATHER like this makes the ice cream and soda water dealers happy.

MERCHANTS will line up for the Fort Wayne races. They will bring many visitors to the city.

ACCORDING to the views of the scientific world, next Sunday will be the greatest day of all the year. A total eclipse of the sun will then occur, but will be visible only in the vicinity of Japan and the Pacific.

IT is claimed that Mark Hanna offered Burk Cochran, of New York, $250,000 to stump the Empire state for the gold standard ides. This may explain the reason this eloquant New York democrat has come out in opposition to Bryan and Sewall.

IN AN interview the other day on the money question, Rev. T. DeWitt Talmage, the famous divine, said: "If the silver people win, I believe there will be such a revival in business, such a booming in industries, which are now inactive, and such a general shaking up of commercial interests that the country will be sure to prosper."

THE recent wet spell and the subsequent warm weather together have produced the greatest crop of blood thirsty "skeeters" this or any other locality ever knew. At the dusk of evening the air is full of them and they all seem to have an ambition to get full—on human blood. What earthly use these pests to humanity are we have never yet been able to discover.

THE discovery of what appears to be a prolific field of natural gas in one of the suburbs of Indianapolis is of great value to that city and it also tends to encourage the hope that the supply from which various other Indiana cities draw will be kept up for many years to come. Nearly all of the prophecies of so called experts have fallen flat, and the mystery concerning the formation, extent and endurance of natural gas reservoirs remains as impenetrable as it was at the beginning

WYOMING has a hustling woman candidate for governor, by name Miss Estella Real. She is said to be attractive and a good campaigner. At present she is state superintendent of public instruction and in the race for that office three years ago she visited every county in the state and made over 500 political speeches. Should she be nominated for governor a repetition of this campaign is certain and she can be depended upon to lead her opponent a merry dance. Woman suffrage and the emancipation of her sex are Miss Real's political slogans. She rides horseback as well as a man, and has unbane manners which capture the rustics of her state. What Miss Real's chances are for securing the nomination there are no means of telling at this time. The probabilities, however, are that she will have to wait a little while longer.

LI HUNG CHANG has arrived in England, and, in anticipation of his visit to the United States, Americans in England have been treating him with special attention. It will be the experience of the great Chinese minister to see a great deal of the United States, as he will entirely cross the country and sail from San Francisco for home. He will doubtless have a pleasant, though brief, sojourn, with the Americans, as he has had with the other people he has met since he left China, and it is probable that he will leave them in as much uncertainty as to the real object of his mission as he has left the others. There is reason to believe that Li Hung Chang is out for a good time, and not much more, and that the end and object of his statesmanship are really to make the China that now is last out his days.

THE democrats who call themselves "sound money men," by way of distinction from the great map of the American democracy who support Bryan and Sewall, held a meeting of some sort at the office of Perry A. Randall last night and appointed a delegation to represent their views in the convention that is to meet at Indianapolis tomorrow. We are so well satisfied that these late brother democrats are off the track and wandering in strange paths from honest convictions that we have not a harsh or other word of censure for their course. We will not even remind them in an offensive way that, according to both precedent and logical deduction, they are bolters from the party instead of being its leaders. This they will, sooner or later, realize in and of themselves, and we predict that the majority of those who composed the meeting last night will be found back in the party ranks and fighting for the same good old democratic banner before the November snow flies. We are very sure that such will be the case, though we do not, from prudential reasons, venture to state the grounds for our belief more fully just now. All things become known in due time, and that which is well done is done soon enough.

It is little wonder, on the whole, that the people of France are beginning to see fiends and devils in the air and hear horrid voices urging them to crime. The French are the most excitable nation on the face of earth. For 50 years the men of Paris and of all who follow Paris ways have been drinking absinth and vermouth wildly, increasing the national excitability. Every abnormal stimulant to the nerves that imagination could devise they have indulged in to the bitter end. These indulgences and depravities have struck at the manhood of the nation. Is it strange the fit of delirium tremens follows? A gifted French author commits suicide; another famous French writer is taken to a lunatic asylum; an artist of worldwide fame dies of melancholia. French novelists and editors have sown the wind and they and their fellow countrymen are reaping the whirlwind. The air is peopled with monsters, demons grin at the children of French mothers and fathers. France is passing through a period of delirium tremens and hysterics brought on by insane drinking and thinking and wild and uncontrolled acting. Devils? Yes. The only wonder is the insane imaginations of absinth drinkers did not create them long ago. Those who lead lives of purity, temperance, justice and decency need fear the sight of no devils.

An odd sort of railway company has been organized in Iowa. It will be built by its stockholders themselves on the co-operative plan. Its capital stock is $750,000, divided into shares of $20 each. The road is from Sioux City to Hartley. Stiff arrangements have been made to prevent this co-operative road from falling into the hands of a bloated plutocracy. No salary above $3,400 will be paid, and no dividends above 5 per cent a year. It was hardly necessary to insert the clause against dividends.

Benjamin Jeans, the old railway guard who has been running on the trains of an English road—the Great Western—for 53 years, could never have done the thing in America. If he had started his railway career in this country he would have been smashed up in an accident or collision long ago.

When you pray that a fellow church member may be changed from the error of his ways and cease to be a stiff necked hypocrite, do it privately and not in a public prayer meeting, or you may get a big church row on your hands. That is what Deacon Young of Brooklyn has discovered.

FANTASY WINS.

Trots the Fastest Heat of the Season at Columbus.

Outfoots the Favorite—Benzetta in the Big Free-for-All—Results From Various Other Places.

COLUMBUS, Ohio, Aug. 6.—Fine weather and a fast track contributed to the success of the races yesterday. The free for-all trot was the card that drew out a big crowd. Benzetta, driven by Hickok, was the favorite, but Fantasy, driven by Geers, won the race in straight heats. The first heat in 2:06¼ was the fastest ever trotted in a race on the Columbus track, and the fastest made any where in a free-for all trot this season. Fantasy only equaled her former record, but would have broken it had she been pushed a little harder by the other horses. Benzetta made a spurt in the last heat and pushed Fantasy so closely under the wire that the latter only won by a nose

Klamath, the favorite in the 2:09 trot, was only able to take the first heat, Kentucky Union winning the next three in easy style. The first heat in the 2 25 pace was marred by an accident, in which Ed. Geers, the veteran driver, had a narrow escape. Just after the horses got away Silk Woodnut, driven by Grady, stumbled and fell Red Oak, driven by Geers, was close behind, and, being unable to get out of the way, went down also, throwing Geers over his head. Geers struck on his shoulders and his presence of mind saved him, for he crawled under the fence just as Red Oak rolled over. He was pretty badly shaken up, but will be in the sulky again in a few days. The summaries:

2:15 Trot, Purse $1,500—New Castle, first; Fred B, second; Aline, third. Combine, Colerima, Dollikins, Orange Chief, Wilmarch, Sunland, Charming Chimes and Jimmy Hague also started. Time—2:11¾, 2:12¼, 2:15¼, 2:16¼.

Free-for-all Trot, Purse $2,000—Fantasy, first; Benzetta, second; Onequa, third; Lold Clinton, fourth.

Time—2:06¼, 2:08, 2:09¼.

2:09 Trot, Purse, $1,500—Kentucky Union, first; Klamath, second; Bouncer, third; B. B. P., fourth.

Time—2:07¼, 2:09, 2 08¼, 2.09¼

2:25 Pace, Purse $1,500 (unfinished)—Planet, first; Sherman Clay, second; Silver Chimes, third. Jack, Red Oak, Nutbreaker, jr., Robert F., Maud and Silk Woodnut also started

Time—2:10¼, 2.14¼; 2:14

OTTUMWA, Iowa, Aug. 6.—At the Ottumwa mile track yesterday afternoon J. H. Dunlavey, of Joliet, Ill., who was driving his bay gelding, Fred Lader, in the three minute trot, was made to get off his sulky and give the lines to another driver. Lader took third place. The three year old and two year old free were postponed till tomorrow on account of rain. Summaries:

3:00 trotting—Captain Jack, first; O. Strund, second; Fred Lades, third—best time, 2:15¼.

2:19 trotting—Sam Medium, first; Llewellyn, second; Winnie B third—best time, 2:17¾

BEDFORD, Ind., Aug 6.—Bedford Trotting association races yesterday. Summaries:

2:30 trot, purse $150—Alty Y., first; Isin, second; Alabama, third — best time, 2:30.

2:40 pace—Alice W., first; Little Dally, second; Joe Davis, third—best time, 2:29¼

MENDOTA, Ill., Aug. 6.—Following are yesterday's summaries:

2:25 pace, purse $300—Blaze Boy, first; Mary, second; Eddie R, third—best time, 2:18¼.

RICHMOND, Ind., Aug 6.—The Wayne county fair opened at Hagerstown yesterday. The attendance was large and the races were interesting. The summaries:

2:45 pace—Light Star, first; Silver May, second; Ivy, third—best time, 2:24½

2:50 pace—Mexican Boy, first; Nesty Word, second; Red Bee, third—best time, 2 25¼

GRIGGSVILLE, Ill, Aug. 6.—A large crowd attended yesterday's fair and races. The track was in excellent condition. Following are the results:

2 Year Old Class, Pacing, Purse $200—Frielmont, first; Louise H., second; Vera G, third. Best time, 2:23½

Combination Trot and Pace, 3.00 Class, Purse $250—Alzemont, first; Vanzetta, second; Sister Crow, third. Best time, 2:34¼.

2 45 Class, Trotting, Purse $300—Jim Laurence, first; George C., second; May Apple, third. Best time, 2.28¼.

TIPTON, Ind., Aug. 6.—The races opened auspiciously yesterday with an attendance of 5,000. The track was heavy. Summary:

Green Run, Half Mile Dash, Purse $250—Belle, first; Nellie Hoover, second; Fleet Girl, third. Time, 0:45.

Green Pace, One Mile, Purse $250—Betsy McConnle, first; Joe Jolly, second; Windfall Girl, third. Time, 2:38.

Two Year Old Trotting, Purse $300—Frost first; Big Frank, second; Dan, third. Time, 2:11.

STATE NEWS.

Burglars plundered the postoffice at Atwood, taking $100 belonging to the government.

Leonard Birch was killed by a railroad train at Alexandria During the war he served with the One-hundredth Indiana, Company K

Levi Wogoman, a young man of dissolute habits, was found drowned in the Elkhart river at Goshen. He was the son of David Wogoman.

Mrs. George Zimmerman, of Evansville, taking exceptions to remarks in her presence by Fred Habbe, a merchant, horsewhipped him on the public street

Miss Charlotte Blinn, of Terre Haute, who prevented the elopement of her sister, Sarah, and Frank Combs some days ago, has instituted insanity proceedings against Sarah, in order to prevent the union, which the lovers have determined upon. She alleges that Combs is scheming to get control of her sister's property.

Mamie Murphy, twenty years old, making her home with a brother at Springport, quarreled with her sister in law over the problem whether green corn should be cooked on the cob or cut off, and, walking to Muncie, she procured morphine, which she swallowed with suicidal intent She then went to a grove, where she died. Before death, she talked with two boys, telling them that she had no home and was tired of life. Her father lives at Brookville

Several officers surrounded the home of Frank Paleton, in Van Buren township, Brown county, and attempted his arrest for the alleged theft of a bicycle from a Shelbyville firm, but Palston escaped to the house of a neighbor. Again was the house surrounded and a surrender demanded, whereupon Palston came out armed with a shotgun and bluffed his way to liberty, although several shots were fired at him as he retreated.

A Monster Double Menagerie With John Robinson and Franklin Bros. Show Combined.

The menagerie department of these combined shows is beyond a doubt the greatest that the world has ever known. The two menageries have been blended into one and the combining of these two separate and distinct departments alone would make a display the equal of which has never been seen in this country. There are two distinct herds of elephants, camels and all sorts of lead stock, two separate departments of lions, tigers, panthers, and the only pair of real black tigers that has ever been seen in this country. The den of polar bears is a positive revelation to amusement seekers and the same thing was never seen in this country before with a traveling show

A great many dens of rare wild beasts are displayed daily in the magnificent street parade, which is free to all and will take place daily at 10 a m And the very important fact must not be overlooked that the parade, like every other department of these great shows, is a double one, unlike any ever before seen. Many shows have and do at the present time advertise dishonestly that they have two shows in one, but there has never been a combining of two really great shows in this land before and people who are in doubt as to the genuineness of the putting together of the John Robinson and Franklin Bros.' shows can readily set their minds at rest This monster amusement institution comes to Fort Wayne, Monday, August 17, for one day, and will give two complete performances.

Summit City temple No. 5, of the Order of Pericleans, held a large and enthusiastic meeting in their hall in the Aldine building, on Berry street A class of nine was initiated, composed of Mr. and Mrs. Hilton, Mr. and Mrs E. E. Bisell, Mr. and Mrs. Andrew Bailey, Mrs. Cretzinger, Dr. Al Snyder and Martin Merriman. This new temple is progressing rapidly and now fairly rivals the older temple of the order. Mr. A. J. You, general organizer, attended the meeting and exemplified the ritual. Mr. You speaks favorably of the future of the order. An invitation from Decatur temple to temples Nos 1 and 5 was received and a visit to that town is in course of preparation. The phenomiual growth of this new order speaks highly of the business ability of our citizens, who compose its supreme body, and are pushing it to the front.

ECZEMA From early childhood until I was grown my family spent a fortune trying to cure me of this disease. I visited Hot Springs and was treated by the best medical men, but was not benefited. When all things had failed I determined to try S.S.S. and in four months was entirely cured. The terrible eczema was gone, not a sign of it left. My general health built up, and I have never had any return of the disease. I have often recommended S.S.S. and have never yet known a failure to cure.

Obeying and Breaking the Law.

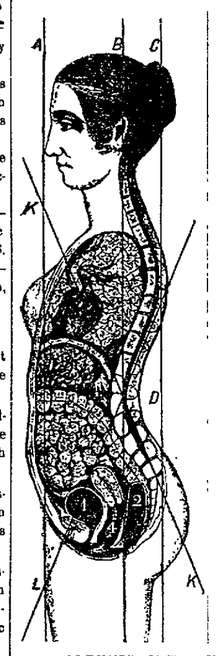

THE LAW. "The internal organs are under the law of position one to another; out of position they must take rank as dislocated organs or orgains out of joint."—BANNING.

TO THE PROFESSION.

The writer of this article, which is intended more for the eyes of the laity than those of the profession, does not wish to be understood as claiming that the derangements mentioned are always purely mechanical, or that mechanical therapeutics alone can always fully meet the conditions; but that the mechanical elements in these cases is frequently the predominating one and, where so, mechanical forces are needed to supplement the medicinal treatment

All the Banning Surgeo-Mechano adjuncts are at the service of the profession, and are free from proprietary restrictions

FIG. 1.

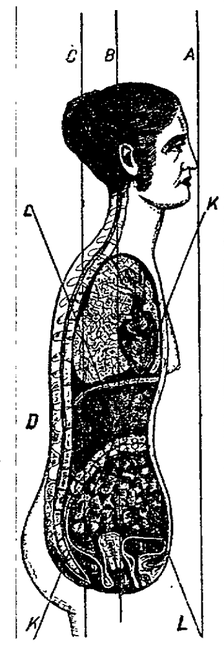

OBEYING THE LAW
FIG. 1.

Is an outline representation—without attention to minute anatomical accuracy—of a perfectly formed healthy woman. The lower abdomen is small; the waist round and full; the chest broad and deep Lines B, L and K, by crossing at D, demonstrate that the trunk is poised over its true centre of gravity that the centripital state exists, all forces flowing from circumference to centre. "The point at which a downward force is met and equally antagonized by the resisting force is its centre of gravity."

From the body's centre of gravity all motion must flow and return. Place your thumb on your friend's back at this point and you will find they can not bow, cannot move the shoulders forward one iota, unless they step away from the pressure or push your thumb backward. Again, your friend being stooped over, press at the same point firmly and he will be compelled to stand erect or exercise great resistance to your pressure to prevent doing so. Thus we see that expanding the chest will not throw forward the small of the back (push it underneath the shoulder) or wearing a so-called "shoulder brace" correct stooping or drooping. Note also in Fig 1 that the pushing forward of the back has elongated the face of the trunk and extended abdominal muscular tissue, while the back is correspondingly shortened and strained spinal muscles rested. (See converse in Fig. 2, shortened face of trunk and elongated back) Thus the muscles of the trunk by the laws of exercise and rest are rendered energetic. In this case we readily see that the inferior organs (1, 2, 3 and 4) are protected from the weight of the superior ones (5, 6, 7, 8 and 9) not only by receiving shelter from advancing spinal curve D, but by the tensed and elastic muscular abdominal wall, which supports the abdominal contents and cause them in turn to support the organs above them In this condition there is no encroachment upon the lower organs by those above them, no dragging upon the organs above by those below them The vital organs are all in their proper predetained position, all having no care for their own weight, and are performing without hindrance, and with ease, the duties assigned them. This is the natural state and OBEDIENCE TO THE LAW.

F.G. 2.

BREAKING THE LAW.
FIG. 2.

It is a perfect contrast to Fig. 1. We recognize at once that it is the imperfect form of a woman who is in imperfect health. As a consequence of general relaxation of the spinal and abdominal muscular tissue the small of the back has retreated from the trunk's true centre of gravity (junction of lines B, K and L) The face of the trunk is thus shortened and muscles relaxed, while the back is elongated and muscles stretched The muscular antagonism is unequal As a result the physical evils of Pandora's box are let loose. No longer are the interior, or lower organs (1, 2, 3 and 4) sheltered from the descending weight of the organs above. No longer does the abdominal muscular tissue hold the bowels from off the lower organs and convert them into warming stimulating support to the organs above

Now we have, as the result of breaking the law of relation and position of the internal organs, two general effects viz: 1st. The effect of pressure on the parts below and, second, the effects of loss of support and dragging on the organs above. For the centripital state is lost and the centrifugal state reigns All forces are flowing from centre to circumference instead of from circumference to centre. In the case of the female, the whole chain of internal organs, riding down on the womb, press it out of position, "dislocate it" and, as in any dislocation, inflammation follows The womb drags upon its ligaments and frequently ovarian troubles are caused Pressure on the bladder decreases its capacity for holding urine and pressure on its neck will cause the retention of urine. Pressure on the lower end of the bowel shuts off the passage of its contents to the outer world The lower abdomen becomes (as a rule) large, the waist small, the chest narrow and shallow. The nerves, veins and arteries are compressed, at this point, where they pass through the pelvis to the limbs, and cold feet, varicose veins and swollen or shrivelled feet and legs may result. The stomach drags from the partition of the body known as the diaphram becomes irritated, inflamed and indigestion follows The heart and lungs no longer supported by the organs below and the diaphram, perform their duties with difficulty. The former hangs from its large vessels, which are thereby elongated and contracted, and thus irritated or liver flutters and pains Respiration is shallow The contracted and narrow chest rides upon and compresses the lungs. A large number of their cells receive no air and the seeds of consumption are sown. With the trunk swinging forward from, instead of being poised over, its true gravity, the anterior, or forward edges of the spinal vertibrae receive undue compression They become inflamed and spinal difficulties may result and generally do This is the unnatural state and BREAKING THE LAW.

COMMON SENSE FUNDAMENTAL PROPOSITIONS.

It is apparent to even the most casual observer, that there exists a large class of chronic diseases which have, to this day, sturdily resisted every established method for their treatment and cure.

Among these, spinal, digestive, nervous, vocal, pulmonary and female weakness stand prominent, and have a representative, to say the least, in a clear majority of families.

PROPOSITION I.—That man, materially considered, is a machine, from the grossest fibre to the finest cell, and as such, is under the control of mechanical law.

PROPOSITION II.—The internal organs, or viscera are as much under the law of definite position as are the bones, and a functional derangement will follow a displacement in one case as well as in the other.

PROPOSITION III.—This definite position of the internal organs consists in a packed, braced and supported state from below, and not in a suspended or pendant state from above.

The surrounding elastic abdominal walls are the consumate agencies in maintaining this supported and primary state of the vital parts The abdominal walls are elastic only in proportion as the abdominal and spinal muscles are tensed and energetic—and these can only be so when the body is thoroughly erect; and when these muscles are active and strong. This is the natural and supported state (See fig 1)

PROPOSITION IV.—That the effects of a departure from the natural or muscularly supported state to the unsupported pendant state are two-fold: First, the effects of pressure upon the parts below; and, second, the effects of a change from a supported to a dragging state upon the parts above.

PRESSURE UPON THE NERVES will frequently cause numbness of the feet, prickling sensation in the limbs and paralysis

PRESSURE UPON THE DESCENDING ARTERIES will often cause imperfect circulation, coldness of the feet and withering of the limbs

PRESSURE UPON THE ASCENDING VEINS will frequently cause varicose veins and swollen limbs.

PRESSURE UPON THE RECTUM OR LARGE BOWEL will frequently cause chronic constipation, piles and prolapsus ani-protrusion of the bowels

PRESSURE UPON THE URINARY BLADDER will often cause incontinence or retention of urine, inflammation of the bladder and prostrate gland.

PRESSURE UPON THE WOMB AND ITS APPENDAGE always causes falling and diseases of the womb, its ovaries and attachments

DRAGGING UPON AND LOSS OF SUPPORT TO THE PARTS ABOVE will cause spinal disease and deformity, indigestion and affections of the heart lungs stomach, liver and spleen

To meet these conditions there is imperatively called for such mechanical support as will restore the organs to their proper position and call forth the activity of their natural muscular supports.

THE E. P. BANNING ORTHOPEDIC AND MANUFACTURING COMPANY OF WILLIAMSBURG, OHIO,

desires to thank the citizens of Fort Wayne and vicinity for their very liberal patronage bestowed through the company's medical director, Dr Banning who has been spending the last six months at the Aveline hotel in Fort Wayne They also wish to state that they are the sole manufacturers, under the supervision of Dr. Banning, of the famous "Banning System of Support" which was granted the only and highest award at the world's fair in Chicago in 1893, against competition from all the world What has been accomplished in Fort Wayne by the Rupture appliances is well known, for the best and most prominent citizens have certified to it over their own signatures They are well It was thought best, on introducing this system to call attention to only one of its merits—the power to cure the worst of ruptures For no one could doubt that if one was ruptured that they knew when they were well The company now wishes to state that the various appliances comprising the system, are fully even if not more, successful in the curing of Varicocle, Piles, Inflammation of the Prostrate Glands Spinal Disease Paralysis Deformities of the Feet and Limbs; Drooping, Stooping, Round Shoulders Indigestion Constipation, Functional Disturbances of the Heart and Lungs, Displacements of the Womb and Difficulties of the Bladder. All of them to be understood, in such cases where the derangements are caused by a displacement, of compression of the organs, or a loss of trunkal bearings or improper muscular contraction

HE WAS A YANK.

Why the Southern Army Decided to Surrender.

Governor Matthews is telling a good story he heard in the South recently, says the Indianapolis Sentinel. In a valley in the northern part of Georgia, between two mountains which shut out all communication with the outside world, there lived an old planter, who, while an ardent adherent of the southern cause, was too badly crippled by infirmities to shoulder a musket and march barefooted. But he had a son whom he sent, and after the boy had disappeared down the road the old man waited for the news of the strife. Occasionally rumors of southern victories would float over the mountains and the old man—Uncle S—— he was called—would rejoice and take an unusually large dose of mint julep. At other times, when reverse news came and it was reported that the gray had been turned back, the old man would bitterly lament and use the same remedy for grief and sorrow that he used to quiet his joy. Through it all he had abundant faith in the ultimate victory of the Confederate army and any doubt expressed would meet with a stern rebuke.

The years wore on and news failed to arrive. The valley was deserted and there was no one to learn the course of events. The old man smoked his pipe and waited impatiently for news. One morning as he sat on his front porch with his pipe, far down the dusty road appeared the form of a solitary pedestrian. Gradually he approached and the feeble vision of the old planter recognized his long absent son. The puffs from his pipe came thick and fast, but this was the only sign of eagerness or nervousness displayed. The gate swung open and the soldier walked up and sat down on the steps.

"Mornin', Jim," said the old man.

"Mornin', pap," was the quiet response.

Impotence for Enterprising Youth.

Now and then we hear of some rich person leaving several hundred thousand dollars to colleges and other institutions. If rich people would desire to perpetuate their memory, a novel and lasting monument to them would be to select 100 or 1,000 deserving young men, and bequeath to them $1,000 each, with which to start in business. The blessings that would follow such philanthropy cannot be estimated.—Chatham, Va., Tribune.

What a great quantity of work a "good housekeeper" finds to do! There are so many little time-and-strength-taking chores that have no names. And it must all be done whether the housekeeper feels like it or not. This is true of men's work too, but men's manual labor is never so complicated as housekeeping. In some way or other "the world's work must be done." This iron clad rule is harder on women than it is on men. A man can't be as sick as a woman.

As a man's organization is simpler and stronger, it follows that his ailments are less complicated He is not subject to the changes and changes, physiologically, that come to the average woman.

If a woman is in good health there is no more healthful employment than housework. Generally speaking, there is no happier woman in the world than the one who is well and busy all day long "making home" for dear ones who depend upon her But how different when every breath is pain, every step torture! This state of health, in nine cases out of ten comes from derangements of the delicate, feminine organs of generation The family doctor inquires first concerning these. He most usually insists upon an "examination" From this the modest woman naturally shrinks. She is right Excepting in very unusual cases of "female weakness" examinations are unnecessary Dr. Pierce's Favorite Prescription is a simple, natural remedy for these ills. It cures gradually, safely, permanently Here is one testimonial out of thousands:

"I was ill four years with 'female weakness.' I took two bottles of Dr. Pierce's Favorite Prescription. I do my house work now without pain or faintness." Yours truly,

WOMAN'S POWER.

IT SHAPES THE DESTINIES OF MEN AND NATIONS.

Where Men Are at a Disadvantage, and "Only a Woman Can Understand a Woman's Ills."

Woman's beauty, love and devotion, rule the world. Grand women; strong mentally, morally and physically, whose ambition and magnetic influence urge men to deeds of grandeur and heroism. Such women are all-powerful. Weakly,

sickly, ailing women have little ambition; their own troubles occupy their thoughts, and their one object is to get well.

They have no confidence in themselves, and only too often lose faith in their physicians.

All irregularities, whites, bearing-down pains, nervousness, headache, backache, "blues," distaste for society, sounds in ears, palpitation, emaciation, heavy eyes, "all gone" feeling, dread of impending evil, sleeplessness, etc., should at once be removed and vigorous health assured.

Lydia E. Pinkham's Vegetable Compound has for twenty years saved women from all this. Hear this woman speak:—

"I wish to publish what Lydia E. Pinkham's Vegetable Compound and Sanative Wash have done for me. I had falling of the womb and leucorrhœa, and they have cured me of both. I am a well woman. I suffered dreadfully with such dragging pains in the lower part of the back and extending around the body, irritation of the bladder, pain when walking and painful menstruation; I weakened terribly. I had been treated by three doctors without much help, and it only took five bottles of your Compound and three packages of Sanative Wash to cure me. I can recommend them to all women suffering with complaints like these."—MRS. VANNATTA, 3827 N. Broad St., Philadelphia, Pa.

QUIETLY WEDS.

Marriage of Robert Douglass and Miss Ada Kleineges.

Accidents, Incidents and Personal Gossip Picked up Around the Railways and Shops.

The many friends of Mr. Robert F. Douglass, the assistant ticket agent of the Wabash railroad, in this city, will be surprised to learn of his marriage, which occurred last evening.

The bride is Miss Ada Caroline Kleineges, the charming daughter of Mrs. Henrietta Kleineges, of 153 Harrison street, the officiating minister being Rev. Lange, the pastor of the St. Paul Lutheran church.

After a wedding supper, the young couple left on the early evening train for Toledo and from there they took the steamer for a trip of the lakes. They will return to Toledo tomorrow evening, where they will be joined by Mr. and Mrs. J. H. Douglass, and the party will then go to Three Mile Bay, N. Y., to visit at the home of the mother of the Messrs. Douglass for a few days.

Leaving Three Mile Bay, Mr. and Mrs. Robert Douglass will take a trip down the St. Lawrence river, and, after visiting at Boston, New York and other eastern cities, will sail up the Hudson river and reach home early in September. They will reside at 399 South Calhoun street.

Few men are better known in railroad circles in this city than Mr. Douglass. He is popular with the company in whose employ he is and also popular with all who does business with him. In fact "Bob's" friends are numbered by his acquaintances, and while the marriage is an unexpected one to them (for "Bob" kept it very quiet) they will extend him and his fair bride their warmest congratulations and wish them long life and happiness.

ROBERT GARRETT'S MISTAKE.

An incident in the career of the late Robert Garrett illustrates the folly of mixing business with the pleasures of the festive board, and teaches a lesson on the necessity of keeping one's own counsel in a mixed company. When Mr. Garrett gained control of the affairs of the Baltimore and Ohio, after the death of his father, he at once began to scheme for the creation of a grand through line from New England and New York to the west. As the first step he looked to obtain possession of the Philadelphia, Wilmington and Baltimore, at the time the only line between Baltimore and Philadelphia. His negotiations with the owners of the road had proceeded to that point where he supposed he had a full option on its purchase. Being in New York, he one evening joined a convivial party at dinner, and under the stimulus of the swiftly circulating bottle he confided to the jovial company the secret of his plans, including the fact of his option to purchase the Philadelphia, Wilmington and Baltimore. Among the guests at the table was a close friend of "Tom" Scott, then president of the Pennsylvania, who lost no time in communicating to that gentleman all that he had heard. The Pennsylvania magnate was not a person to permit a rival to gain any advantage through delay on his part, and when, a short time thereafter, Mr. Garrett went to Boston to close the deal for the Philadelphia, Wilmington and Baltimore, he found to his dismay that Mr. Scott had anticipated him. The road had been sold to the Pennsylvania for cash. This turn of affairs completely disconcerted Mr. Garrett, and changed the situation in railroad affairs in the east. It blocked the contemplated alliance between the Baltimore and Ohio, the Reading, the New Jersey Central and the New England roads, making the Pennsylvania the master of the situation, and eventually led to the collapse of the Reading and the failure of the Baltimore and Ohio. It was the beginning of the end of the career of the younger Garrett as a railroad king, and, together with the struggle with Jay Gould to prevent the absorption by the Western Union of the Baltimore and Ohio telegraph lines, no doubt was the cause of the mental break down of Mr. Garrett.

BRIEF MENTION.

Nickel Plate Engineer Charles Bromelmeyer is sick and off duty.

Trainmaster C. E. Wells, of the Wabash, was in the city last night.

Mr. and Mrs. B. D. Weyer have gone to Chicago to visit Mr. Weyer's brother.

Pittsburg engines 70 and 89 have left the shops after repairs and repainting.

H. Rohlman, a passenger car painter, has resumed work after an illness of a week.

Mr. Noyes, a manufacturer of lumber at Bay City, Mich., is in the city visiting relatives.

Henry Pohl, of the Pittsburg shops, is off duty on account of the sickness of his mother.

Engineer D. T. McFee has returned to his duties on the Nickel Plate after a week's vacation.

Henry Wiese, engineer at the City mills, is building a fine brick house on West Main street.

James Woodworth and J. Pauley, of the Pittsburg boiler shop, are fishing up the St Joe river.

Nickel Plate Conductor John Hibbinger has moved into the house at 320 West Main street

Master Mechanic F. A. Rider, of the Bass works, has returned from a business trip to Milwaukee.

James Besson resumed work this morning in the Pittsburg copper shop, after a few days' illness.

Manager A. D. Cressler, of the Kerr Murray works, left over the Wabash this morning for the east

Sickness keeps William Blake confined to his room. He is a blacksmith employed at the Bass shops.

Arthur Reid, who has charge of the tool room at the Bass machine shop, has gone to Alba, Iowa, to visit his sister.

Nat Duke has been appointed general west bound traveling agent of the Nickel Plate line, with headquarters at Buffalo

J. N. Fournier, of the Pittsburg lumber yards, is off with an injured eye. He got a cinder in the optic a few days ago.

Charles Schmidt is at his desk again in the Pennsylvania shop office, after a pleasant visit with friends in Indianapolis and Chicago.

Jacob Ritter, a veteran machinist in the Pittsburg shops, is suffering from general debility and is off duty. Mr. Ritter is in the seventies.

Amos Such, Henry Sinigan and John Gibson, employes of Rhinesmith & Simonson's lumber yards, are sick, having been nearly prostrated by the heat.

While working about a Pittsburg engine yesterday afternoon, Louis R. Buckwalter received an ugly wound on the nose, dangerously near the right eye.

Frank Carman, the Wabash engineer, has resigned to engage in the cigar business with T. C. Koch, who manufactures the 'Arcade" and the "Cannon Ball."

Operator Charles Brady, of Tilton, Ill., arrived in the city yesterday and has temporarily taken the night trick in the Wabash offices

The Wabash Niagara Falls excursion train will leave here on the evening of August 18, instead of the morning of that date, as erroneously stated yesterday.

D. F. Crawford has returned from a tour of Pennsylvania railway towns in the interest of the company. He reports business east about as it is here—dull.

Mrs. Fred Homeyer, wife of the organ factory employe, has returned from Milwaukee, where she visited the family of Deiedrick Homeyer three weeks.

Blacksmith Owen Barry, of the Pittsburg, will spend Sunday at Crestline, Ohio. Mrs. Barry has been in that city for over a week. She will return home with her husband.

Thomas McCann, an old railroad man who in former years ran an engine on the Wabash, is in the city visiting old friends. He has for twenty years past been located at Kansas City.

Reinking & Wolke, the contractors, have just completed a handsome residence on Nirdlinger avenue for Henry Klepper, of the Wabash boiler shop, who will remove there shortly with his family.

Conductor Sauer, of the Nickel Plate, who was visiting his brother at Bellevue, Ohio, has resumed charge of his train on the Nickel Plate. His wife and children have also returned home from the same city.

Trainmen from the south report a severe electrical storm at Richmond, Ind., and thereabouts this morning. The water came down in sheets, causing little streams to overflow in a few minutes, but no damage is reported.

It is probable that the Wabash shopmen will have their excursion to Detroit on the 22d inst. The pay car will arrive on the day previous to that date. The fare will be $1, making the excursion the cheapest one ever run out of this city.

E McLaughlin, who was injured two weeks ago, took his place again in the Pittsburg blacksmith shop this morning. Charley Barnes, Fred Starke, Will Hayes, James Burns and Frank Meyers are also working, after an absence for various reasons.

Bridge Carpenter Crawford Griswold returned from Eagle Lake this morning, where his family is located for the summer. He says there are more than the usual number of people at the resort this season, but there is danger of the place being depopulated by mosquitoes, which were never so large and plentiful.

The Financial Chronicle calls General Manager St. John, of the Seaboard Air line, a disturber of rates, and holds him responsible for all the troubles growing out of the rate war between his line and the Southern. It claims he pursued the same sort of tactics he is now following when general manager of the Rock Island.

The Chicago Rock Island and Pacific has taken off eight suburban trains between Chicago and Blue Island. It is said that this is on account of the competition of the Chicago and Northern Pacific, which, to meet the competition of electric lines, recently reduced the fare to a large number of suburban stations to one uniform rate of five cents.

To William Hagan, of 105 Butler street, is due the credit of raising the largest tomato ever produced in Allen county. This morning he plucked one from his vines which weighed exactly two pounds and six ounces and from outside appearances it was sound and perfect throughout. Mr Hagan is employed in the Fort Wayne Iron works.

It is stated that if all the locomotives used by the Pennsylvania Railroad company were stretched in one line, it would be over ten miles long. A locomotive would have to go around the world 1 800 times in a year to go as far as all these engines go in one year. To do this it would have to travel at a speed of eighty-three miles a second, or over sixteen times as fast as a cannon ball travels as it leaves the gun.

An understanding satisfactory to all concerned has been reached in the matter of the rates for the fire chiefs' meeting at Salt Lake City. A special reduced rate of $30 from Chicago and $27 from St. Louis will be granted only on the 6th, and steps are to be taken, through the machinery of the Western Passenger association, whereby the chairman will be given a description of every ticket sold, so that tickets purchased by brokers and transferred from the original purchaser will be refused for passage.

The movement of grain from points in western Kansas to the eastern markets has gained such proportions that some of the lines find it difficult to handle all the offerings. The Santa Fe is especially crowded with business, and is said to have about reached the limit of its capacity. The company had 325 cars of corn billed for New York Saturday, and sent out fourteen extra trains on the Chicago division that day. On the same day there were 425 car loads in the Argentine (Kan) yards awaiting shipment east.

Machinist W. S. Wells has completed a tour of the cities and towns in Northern and Central Indiana in the interest of a grand state meeting of the Royal Arcanum, which will be held at Maxinkuckee August 26. He says that if the weather is favorable on that date there will be over 5 000 members of the order present at the meeting. South Bend expects to furnish over 1,000 people for that occasion. Howard council, of this city, has arranged to run an excursion to Maxinkuckee on that date and tickets are now in the hands of the members for disposal

Daniel Bevelhaimer, the watchman at the Broadway crossing of the Pennsylvania road, and a companion were egged last night by a party of hoodlums, who frequent the railways and steal rides to and from the junction west of town. The gentlemen were standing at the gate when the train passed and the lads threw three or four eggs at them. One of the missiles struck Mr. Bevelhaimer's friend on the forehead and spread its contents over his face and clothing. Another barely missed the watchman's head and spread itself over the side of his shanty.

NEW LIFE SAVING BOAT.

To Take the Place of a House Station, Harbor on the Vessel.

One of the most peculiar vessels ever built in American waters is the Boston bay floating life saving station, which has just been completed at Noank, Conn. There is nothing like her under the heavens. The mention of a life saving station suggests a salt stained building on a storm swept beach, with surf patrols and lifeboats. The new craft, however, is expected to prove even more useful than the surfmen, as she will lie offshore outside the line of breakers, and her crew will have the element of danger from surf removed from their work.

This station is the first of the kind ever constructed. The boat is 100 feet long, 33 feet wide and 6 feet deep. She is shaped much like an old fashioned flatiron, cut off square at the stern.

It is the "harbor" cut out of the main deck at the stern that makes the boat a curiosity. This opening cut into the stern is 30 feet long and 17 feet wide. It is surrounded by a walk 6 feet wide, upon which boats may be hauled. The upper deck extends the whole length of the boat, covering over the top of the harbor as well.

As the "station" will continually lie at her anchors and head to the wind, it follows that the egress and ingress of small boats from and into the harbor will be conducted in a sheltered place, and one of the dangerous and disagreeable features which life saving crews have hitherto had to put up with—the launching of boats through the surf—will be obviated. In this harbor will be moored two naphtha launches for the use of the life savers, and a surfboat will hang on davits near at hand.

As a whole, the craft looks something like a houseboat. She is built in a most durable manner, with a view of resisting any storm with which she may have to battle. She is heavily bulkheaded, and the main deck, which is ten feet above the level of the sea, contains abundant room for the crew of eight men and captain who will man the vessel. On this deck is a large pilothouse 7 feet high, which will be used as a lookout. There is abundant room for the comfort of the crew.

The station is fitted with anchors, but has no masts, machinery or steering gear. She has been 50 days under construction and is to be towed to Boston at once, where she will be stationed in Boston bay directly off Gity Point. Her cost was $7,000 exclusive of her furnishings, and she was designed by Assistant Superintendent of Construction Henry E. Davis of Palmer's yard.—New York Sun.

Peril In X Rays.

Dr. Markuse of Berlin, whose "interior" has been photographed 20 times within the past 20 days by the Roentgen process, has lost all of his hair as a result, and his face has assumed a brownish color.

The skin has peeled off his breast where the Hitorf instrument nearly touched it, and on his back what was first a sore finally developed into a bleeding wound, surrounded by burnt looking cuticle.—New York Journal.

Marvelous Results.

From a letter written by Rev. J. Gunderman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist church at Rives Junction, she was brought down with pneumonia, succeeding la grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at Dreier & Bro.'s Drug Store. Regular size, 50c and $1.00.

STRIKE ON ALL SEAS.

SEAMEN ARE ORGANIZING ALL OVER THE WORLD.

Preparing to Demand a Universal Wage Scale From Shipowners — Movement Started In England, but American Sailors Said to Favor the Idea Heartily.

A wage scale to govern the shipping interests of the world has been drawn up. If the shipowners fail to accept it, seamen say a strike will be declared which will be felt wherever men trust their lives to the decks of vessels.

The idea, having its origin among the English sailors, has gradually spread until now it has staunch supporters everywhere. American seamen are said to be in thorough accord with the movement.

It was the original intention to carry the agitation on quietly and to set a date when the effort should be made without attracting undue attention, but recent developments in London and vicinity, where the police interfered with a meeting that had been held for the purpose of organizing seamen, gave it more or less publicity, and the recent receipt of information regarding the movement in this country has made it a matter of common talk among sailors.

T. J. Elderkin, secretary of the International Seamen's union, with headquarters in Chicago, said that he had received several communications bearing on the subject, and that he believed American seamen would lend their support to the effort to introduce an international wage scale, one which would be recognized everywhere, and which, if in force, would do more than anything else to eliminate the nonunion man from the business of sailing and give the union a footing that no future happening could undermine.

While the union of which Mr. Elderkin is secretary is international in character, it does not extend over many of the European countries and is only designed to reach those seamen who cast anchor in this country. It is the intention of the promoters of the new movement to organize a union that will take in every man who has anything to do with the shipping business. This organization is to include firemen, sailors and dock laborers and will reach out a little farther and take in railroad men. Thus a brotherhood will be formed that, should a general strike take place, would completely paralyze the interests of transportation.

In England the movement is championed by such men as J. H. Wilson, M. P., who is at present president of the seamen's organization; Tom Mann, L. Johnson, and Richard McGhee, M. P. Already meetings have been held at Antwerp, London, Liverpool, Rotterdam and Glasgow, and it is claimed that as many as 25,000 men have been organized in a single day. Active work along this line has not begun in the United States as yet, but it is said that the Seamen's union of this country is in a position to take action on very short notice.

It is the purpose of the Englishmen to send representatives to this country to investigate the rate of wages paid in Chicago, New York, Cleveland, Buffalo, New Orleans and other ports, and these will be compared with those paid in English ports. It is then proposed to hold an international conference, at which the seamen of the United States are expected to be represented and at which the universal scale will be adopted.

As an inducement for seamen generally to take part in the proceedings of the international conference it is pointed out that with such an organization at command vessels which departed from one part of the world with nonunion crews could be intercepted at the point of destination and there made to feel the power of the union. It is, however, understood that the international organization would in no way interfere with the autonomy of organizations already in existence. In other words the International Seamen's union, which has its headquarters in Chicago, would continue to legislate for its members along its own lines, but always keeping in harmony with the laws of the other body.

Statistics are at present being gathered as to the approximate number of men that will be affected by the movement.—Chicago Record.

IN CLEVELAND'S NAME.

Novel and Successful Confidence Game Played In Kansas.

Federal detectives have arrested Henry Wells, an attorney of Girard, Kan., and Tom Hobson, also of that place, charged with complicity in a gigantic swindling scheme by which they and their confederates are said to have realized $60,000.

They are said to have operated in Kansas, Missouri and the Indian Territory, pretending to be personal representatives of President Cleveland, who, they said, proposed to buy a third term. This he would do by obtaining millions of dollars in canceled greenbacks from the United States treasury, putting from $2,000 to $4,000 in the hands of appointed agents.

These agents were to spend the money to buy support as they thought best, but must themselves put up $250 in cash as a guarantee of good faith.

The two prisoners were put in the federal prison at Fort Scott. Wells is a son of Judge T. W. Wells of Pittsburg, Kan.—New York World.

They Vie With Freaks.

The wide reputation which the "long" and the "short" men have obtained for themselves has made the office of Inspector Fitzpatrick of Chicago as much sought out by visitors to the city as the roof gardens and the drainage canal.

People from all over the United States are at the office early and late to see the "long" and the "short" men who ran Chicago for so many months, and the police officials could coin money by erecting a stage and charging an admission fee.—Chicago Tribune.

A New Eight Hour Movement.

At a meeting of the National Union of Carpenters and Joiners of Philadelphia it was resolved to demand on May 1 next an eight hour day at a scale of 35 cents an hour. The movement is said to be general.

WILL BUILD A HOTEL.

Dr. Younge to Erect One at Muncie, Ind.

(Muncie Herald.)

If all plans work to a nicety Muncie will have an elegant new hotel by the time the birds begin to sing next spring. Today there is a gentleman in Muncie who is anxious to organize a stock company for the purpose of erecting a first class hostelry, and to start the ball rolling he will take $10,000 worth of stock.

The gentleman in question is Dr. Younge, the eminent specialist, whose home is in Fort Wayne. The doctor has long cherished the idea of building a modern hotel in this city and today he called at the Herald office and stated that he had $10,000 to invest and would talk business with capitalists who would call on him.

Dr. Younge wants to erect a hotel that will be first class and modern in every respect and will cost several thousands of dollars. There is an opening for another hotel in Muncie and none is more fully aware of the fact than the doctor.

FACE RAW AND BLEEDING

My little boy was afflicted with Eczema in acute form for a year, during which we tried without success every known remedy. The disorder appeared on the right cheek and was of a blistery and bloody form. His pillow, mornings, would bear the bloody imprint of the side of his face, while it was impossible to prevent him from scratching his face owing to the itching. Advised to try CUTICURA, I bought a box. The first application was made at night, and it is a fact, that the appearance of the affected parts showed *a noticeable improvement the next morning*, and, continuing the treatment as a result, my child has as fair and smooth skin as can be found anywhere.

Until the eighth inning yesterday it looked like a shut out for the visitors. They then bunched their hits, and assisted by errors of Lynch and Tebeau, got in five runs. Gilboy, left fielder, made things merrier than ever in the ninth by sending the ball over the fence. Fortunately for Fort Wayne no men were on bases at the time. Chris Weller umpired the game, and while he was a little off at times his decisions were plainly made without prejudice, and were satisfactory to both sides. The score was:

Fort Wayne	3	1	0	0	0	0	5	0	0	9
New Castle	0	0	0	0	0	0	0	5	1	6

Hits—Fort Wayne, 12; New Castle, 10. Errors—Fort Wayne, 4; New Castle, 3. Earned runs—Fort Wayne, 3; New Castle, 1. Two base hits—Babb, Rickert, Gilboy, Whitehill and Donovan. Home run—Gilboy. Stolen bases—Babb, Tebeau, Rickert. First base on balls—Off Carrick, 1; off Hewitt, 3. Hit by pitched ball—Carrick, 1. Struck out—By Carrick, 5; by Hewitt, 1. Wild pitch—Carrick, 1. Double plays—Hewitt and Farrell. Umpire—Weller. Time of game—2:10.

NEW PLAYERS.

Fisher and Huff, two new players, will appear in today's game. Fisher will make his bow at second base and Huff will be behind the bat. They are both said to be fine players. Fisher has been making a good record in the Western league with the Peoria club, and the Fort Wayne management has been after him for some time. The positions of the players in both clubs today are as follows:

Fort Wayne—Fisher, 2 b., Grey, c.f., Babb, s. s., Tebeau, 1 b, Rickert, l. f., Huff, c., Lynch, 3 b., King, r. f., Swain, p.

New Castle—Gilboy, l. f., Whitehell, 2 b., Farrell, s. s., Ganzel, 1 b., Sullivan, 3 b., Daniels, c. f., Donovan, c., Provine, r. f., Hickman, p.

NEW UMPIRE.

Frank S. Haller, a base ball player, arrived in the city this morning from Pittsburg, having been assigned by President Powers to umpire the balance of the present series in this city. He will umpire today's game.

OTHER INTER STATE GAMES.

SAGINAW, Mich., Aug. 5.—The locals took a well contested game from Youngstown at Union park yesterday afternoon. Youngstown played fast ball, but made several costly errors. The home team played steadily and assisted by Miller's fine work held the visitors down to two runs. Score:

INNINGS.	1	2	3	4	5	6	7	8	9	R
Saginaw	0	1	1	0	1	0	0	0	—	3
Youngstown	1	0	0	1	0	0	0	0	—	2

Hits—Youngstown, 9; Saginaw, 9 Errors—Youngstown, 4; Saginaw, 1. Batteries—Miller and Northwang; Brodie and Zimram.

JACKSON, Mich., Aug. 6.—A scrappy game was played yesterday and won by Jackson with the stick. Hardesty's work at second was extraordinary Score:

INNINGS.	1	2	3	4	5	6	7	8	9	R
Jackson	0	0	1	2	2	0	0	4	1	—10
Wheeling	0	0	0	1	1	3	2	0	0	— 7

Hits—Jackson, 16; Wheeling, 10 Errors—Jackson, 6; Wheeling, 7. Batteries—Engle and Corcoran; Garvey and Shaw.

TOLEDO, Ohio, Aug. 6—Ferguson thoroughly retrieved himself yesterday for Tuesday's failure and showed himself to be a wonder. Score:

INNINGS.	1	2	3	4	5	6	7	8	9	R
Toledo	0	0	0	1	2	0	0	7	0	—10
Washington	0	0	0	0	0	0	0	0	0	— 0

Hits—Toledo, 11; Washington, 1. Errors—Toledo, 2; Washington, 3. Batteries—Ferguson and Arthur; Dinsmore and Mitchell.

NOTES.

Fort Wayne got twelve hits off of Hewitt. The boys had on their batting clothes yesterday.

Carrick was in good form and used splendid judgment at the critical times when bases were full.

The Louisvilles have lost twenty-five games by one run this season. Some justification for a hard luck story there.

Second Baseman Whitehall made a difficult stop of a hot grounder and threw to second, retiring a base runner. It was a pretty play.

Quinn caught an errorless game. His star play was throwing Gilboy, the crack base runner for the New Castle team, out at second.

There is said to be a phenomenal pitcher at Washington, Ind., by the name of Kniffer. In a recent game he struck out eighteen Evansville players.

The Daily Kindergarten tells about Center Fielder Gray, of the Fort Wayne team, having a brother in Harvard college for whose education he pays. As usual, wrong again. Gray has no brother at Harvard.

Frank Torreyson, ex manager of the Toledo team, is negotiating with the owners of the Saginaw team and will likely take the management of it. Torreyson is a manager from the word go, and will make something out of the tail enders.

Wheeling News: "The success of base ball statesmanship lies in keeping your mouth shut. If certain managers would take warning Polonius by giving every one their ears and no one their tongues, they would fare better financially and in divers other ways."

Manager Delaplaine, of the Wheeling team, thinks the Toledo fans are too noisy. He says there is a big difference between legitimate rooting and blackguardism. "In no other city," said he, "have I heard such blackguardism as comes from the grand stand there."

A special from New Castle says: 'New Castle will protest against Ferguson, whom Toledo is claiming, from being in any game with the latter club. Ferguson is claimed by New Castle. He was formerly a pitcher in the Pacific Slope league, which went under recently, and as soon as it was known that league would not last the local management secured from Ferguson an acceptance of terms and an agreement from him to come to this city. He was expected to report at either Jackson or Saginaw, and if he puts in an appearance at Toledo there will be a protest entered."

WAR IN SPAIN

May Result From Cuban Troubles.

The Insurgents Succeed in Interesting the People,

And Several Riots Have Occurred in Some of the Provinces of the Spanish Country.

MADRID, Aug. 6.—Trouble of a serious nature is being fomented in Spain, particularly in the province of Valencia, by agents of the Cuban insurgents. The minister of the interior, Senor Cosh Cayon, yesterday, replying to a question in the chamber of deputies, admitted that a number of riots had occurred in Valencia, and when asked to explain the cause of the disturbances, said that they were caused by friends of the Cuban insurgents who hoped thereby to prevent the departure of further reinforcements of troops for Cuba.

Hitherto the popular demonstrations have been attributed entirely to protests against the imposition of new taxes, a step made necessary by the financial strain the government has been subjected to through carrying on the campaign against the insurgents of Cuba. But, while the government is only willing to admit that the riots have been instigated by the agents of the Cuba revolutionists, it is generally admitted that the roots of the trouble are much deeper and that it is being nourished by the natural feeling of alarm and dismay at the apparent utter inability of the government to cope with the situation in Cuba.

That the large Spanish army in Cuba must be still further and heavily reinforced is looked upon here as being a confession of failure upon the part of the administration and as an admission of the growing strength of the Cubans. In addition, many letters have been received in different parts of Spain by the relatives of Spanish soldiers serving with the army in Cuba and they tell such terrible tales of sickness, privation, incompetency and mismanagement, to say nothing of lack of pay, that a dangerous feeling against the government has arisen and is gaining strength day by day.

Under these circumstances the agents of the Cubans do not have much difficulty in carrying out their plan of causing popular outbreaks. They steadily fan the flame of discontent by pointing to the apparently unnecessary hardships which the Spanish troops in Cuba are compelled to endure. The republicans, also are taking advantage of the situation to push their propoganda and the combined movements making more headway with the masses than the government will admit, although it is already betraying symptoms of alarm and has sent stringent instructions to the prefects to promptly and effectually suppress demonstrations which may occur in their district and to have no hesitation in calling upon the military for support.

A number of conflicts between rioters and the police and soldiers have already occurred, shots have been exchanged, several persons have been wounded on both sides and a large number of arrests have been made. This, the revolutionists assert, will serve to call attention to their cause and enlist in their behalf the sympathy of the people. The roads in Valencia are being patrolled by gendarmes, troops are pursuing armed bands of revolutionists in the mountainous districts of the same province and further trouble is apprehended. Madrid, up to the present, has been quiet, but signs are not wanting that the spirit of discontent is abroad and that the efforts of the government to gain support by trying to throw the blame for everything upon the United States, the chief bugaboo of Spanish politicians, will not much longer avail.

In a factory near the city of Valencia the authorities have discovered a quantity of arms and ammunition and similar stores are believed to be in existence in different parts of the province. The arms recently are known to have been smuggled into Spain very recently and are not of foreign manufacture, showing their shipment to be part of the plan of campaign being conducted by the Cubans in Spain.

The Spanish officials, as usual, are blaming the United States for the troubles in this country, basing the assertions made on the fact that among the leaders of the recent riots was Dr. Bernando Toledo, said to be an American citizen whose brother is in command of a force of Cuban insurgents. It is claimed that money, arms and ammunition were served out to the rioters from the house which he occupied and a search of the building is said to have resulted in the discovery of a number of letters from the United States, Cuba and Argentine Republic, showing that the outbreaks here have been planned by the leaders of the Cuban insurgents and that the movement is widespread and capable of assuming most serious proportions.

Among other features of the situation here in the effort being made in certain quarters to arouse the masses against the Protestants, all Americans being classed as Protestants, and to them, as already stated, being attributed Spain's reverses in Cuba and the growing insurrection here. The Cuban agents, however, are doing everything possible to counteract this movement and are urging the people to place the blame for the excessive taxation, the military blundering and the political bluster where it really belongs, upon the shoulders of the Spanish government, and not to be misled by such foolish inventions as the statement originating from semi official sources and for a time pretty generally believed, that agents of the United States government were overbidding the agents of Spain wherever the latter tried to purchase warships for the Spanish government.

INTENSE EXCITEMENT.

In a Mining Camp Near Noblesville, Ind.

Fanaticism Characterizes the Actions of the Leaders—Troubles Arise and Arrests Are Made.

NOBLESVILLE, Ohio, Aug. 6.—New Pittsburg, a mining camp a few miles from this city, is the scene of the most intense excitement, bordering upon fanaticism. The leaders claim to be in personal communication with the Lord and act under instructions from him. Excitement is so high that families have been broken up and numerous fights have occurred over the matter. The authorities have tried every way to get rid of the fanatics, but failed. Warrants were sworn out today for the arrest of the leaders, Mart Searles and his two brothers, and when arraigned before the justice they were furious and denounced the court in most bitter terms and insulting the justice in the highest manner, even slumbing upon the desk and spitting upon him. The trio were finally placed in jail and Mart was taken to the Athens asylum. The others will surely follow. Their followers number about 150, some of whom have given as high as $150 each upon being converted. The more conservative people predict that the trouble will end in bloodshed.

SUNSTRUCK!

W. H. Lepper is in a Serious Condition.

While Working on a Tannery Building in Nebraska, He is Stricken Down.

While working on the new tannery building in Nebraska today, shortly after noon, W. H. Lepper, a carpenter, suffered a sun stroke.

He was taken to the St. Joseph hospital in the patrol wagon and is now in a very serious condition. He was unconscious for some time.

Mr. Lepper resides on Zollars avenue. He is attended by Dr. G. B. Stemen.

MILITIAMAN SHOT.

As a Result of the Difficulties at Cleveland.

CLEVELAND, Ohio, Aug. 6.—A militia man was shot on Luther street, in the east end early this morning. Between midnight and 1 o'clock a crowd made a sudden attack on a building where a man named Johnson, who is employed at the Brown Hoisting works, lives. They broke in the windows and yelled liked Indians. The soldiers heard the disturbance and rushed to the scene. Part of the crowd scattered, but a dozen men stood fast bay, with revolvers and shot at the militiamen. The soldiers replied with rifle balls and then the men scattered. In the melee Private Perkins, of Company "B," was shot, but it is not known how seriously. He was taken away in an ambulance. The official statement at Colonel Whitney's headquarters is that Perkins was accidentally shot while loading his revolver. It is claimed by others, however, that he was wounded in the Luther street skirmish.

HOME CITY.

The Program at Island Park Assembly.

HOME CITY, Aug. 6, 1896.

The Uniform Rank, K. P., of Kalamazoo, Mich., gave an exhibition drill yesterday at Island Park assembly, which was of a very high order, after which Burrett Hamilton, of Sturgis, Mich., presented them with a stand of colors. Knights from Sturgis were here 100 strong, carrying tri colored umbrellas, and giving the K. P. large delegations. The addresses were more than up to the standard, especially the ones given by Supreme Vice Chancellor Charles Colgrove and Burret Hamilton. Tomorrow is C. L. S. C day. Bishop Becker and Rev. G. M. Brown are to occupy the platform. The assembly this year has exceeded the most enthusiastic expectations, so far as patronage is concerned.

THEY'LL BE THERE.

The Presidential Candidates at Topeka.

TOPEKA, Kas., Aug. 6.—All the candidates for president and vice president will attend the old soldiers' reunion at Topeka the last week in September. Acceptances have been received from McKinley and Bryan and Garrett. Hobart has written he would be here. Invitations have been sent to Tom Watson and Arthur Sewall and the populists and democrats pledge that they will both be here.

A San Jose, Cal., paper says: "The first carload of green fruit was shipped from San Jose yesterday under the carbonic acid gas precooling process. The car has been carefully filled up under the supervision and instructions of August Bowser, of Fort Wayne, Ind. Mr. Bowser will accompany the car east to Chicago, where it will be placed on sale in competition with fruit shipped under refrigeration with ice.

FAIR WILL CASE.

The Greatest of All Cases Is On at Last.

After a Weary Seige of Legal Bickering the Twenty Million Dollar Suit Commences.

SAN FRANCISCO, Aug. 6.—After many months of skirmishing and sparring for position among the army of attorneys involved, order has been finally secured in the Fair litigation and the trial of one of the greatest will contests in the history of the United States is now at hand. By an order issued by Judge Slack yesterday the merits of the so called pencil will, the document produced by Mrs. Nettie R Craven as the last testamentary disposition by Millionaire James G. Fair of his millions of money and property, is to be decided at once and legal bickering on the part of the lawyers will give way to a determination of questions of fact and issue. Fair has been dead almost two years, but it was not until today that a definite move in the complicated legal fight was made. There have been motions and counter motions, demurrers and cross complaints, and all the other endless tactics for which law and lawyers are famous.

Some twenty millions are involved in this, the biggest law suit of California, and almost as many endeavors have been made to postpone the final trial of the case. A will has been stolen from under the very nose of the court clerks and a second will filed. A widow has arisen by virtue of assertion that she was married by contract to the mining king, to claim a million and a half dollars of his property and has filed deeds to substantiate her claim. Charles L. Fair has disputed Mrs. Craven's claims. George A. Knight thinks he can win a case for his client and disable Mrs. Craven and her claims in sixty days. But others doubt Knights ability to settle the question so quickly.

MAYOR PINGREE

Nominated for Governor by Michigan Republicans.

M. D. Frank Will Lead the Democratic Forces of States-Wisconsin Convention.

GRAND RAPIDS, Mich., Aug. 6.—The second day's session of the republican state convention was called to order at 10 o'clock this morning. The motion to divide the St. Clair county, giving Bliss and Pingree each eleven votes, was adopted by a large majority. A number of seconding speeches were then made and the convention proceeded to take a ballot for governor. The first ballot resulted: Pingree, 339; Bliss, 286; O'Donnell, 83, Wheeler, 47; Conant, 22; Aitkin, 55. Necessary to choice, 417.

On the second ballot Pingree had 355; Bliss, 297.

On the third Pingree was but twelve votes short of a majority and he was nominated on the fourth ballot amid tremendous enthusiasm.

WATERVILLE, Maine, Aug. 6.—M. D. Frank, of Portland, was nominated for governor of Maine at the state democratic convention this afternoon.

MILWAUKEE, Wis., Aug. 6.—The republican state convention reconvened at 10:18 this morning, when the roll call of districts was resumed for seconding speeches. During the progress of the call for seconding speeches Senator Thurston was introduced and made a brief address. The senator, who is a Wisconsin man, was tendered an ovation by the delegates.

DUEL WITH KNIVES.

One Man Dead and the Other Dying.

Brooks Involved in a Fight Through Discussion of a Neighborhood Protracted Meeting.

GREENVILLE, Ky., Aug. 6.—Yesterday afternoon two farmers, Tom Hall and Terry James, became involved in a difficulty over a discussion about a protracted meeting held in the neighborhood. They came to blows and both pulled their knives. Terry James was stabbed five times and died this morning. Hall is cut in seven different places and cannot live through the day. The men fought in the broiling hot sun and were alone when the fight occurred, no witnesses being present.

MILLIONAIRE ROBBED.

He Was Kept a Prisoner for Two Days.

SAN FRANCISCO, Aug. 6.—James A. Campbell, a Honolulu millionaire, who disappeared last Monday, returned last night with a bullet hole through his hat and an exciting tale about an adventure with robbers. Campbell says that while he was drinking in a private room in a saloon he was confronted by two masked men who demanded money. The millionaire refused the demand and in the fight that followed a bullet went through his hat and Campbell says he was robbed and kept a prisoner for two days. When released last night he was given a nickel for car fare.

DISCOURAGING OUTLOOK

For Farmers and Business Men in West Virginia.

PARKERSBURG, W. Va., Aug. 6.—The crop bulletin issued by the state weather bureau gives a discouraging outlook for farmers and business men depending on them. It gives a report by counties of the damage by the recent cloud bursts, high waters, etc. Great damage was done in northern counties and to the valley. Wheat and oats are sprouting in the stacks and potatoes are rotting in the ground. In Randolph county alone the damage is estimated at $100,000 to the farmers. Fields of corn and gardens were washed away.

FACTS AND FIGURES.

School Board Files Its Annual Report of Finances.

The Amount Paid Out in a Year From the Special and Tuition Funds.

The annual report of the board of school trustees for the city of Fort Wayne has been filed with the county commissioners. By going over the figures the reader can learn just what it has cost to conduct the schools for the year ending last July.

SPECIAL FUND.

The receipts of the special fund were as follows: Balance on hand from last year, $29,931 68, received from county treasurer, special school tax, $38,633 69, from sale of old furniture, etc., $91 50, from displaced books, old books, etc., $171 88, contingent fund returned by John S. Irwin, $17 60; sale of old paper, $5 90. Total, $68,852 37.

The expenditures of the special fund for all purposes, except tuition, amounted to $32,718 01; balance now on hand, $36,301 45.

TUITION FUND.

The receipts of the tuition fund were as follows: Balance from last year, $32,413 30; received from county treasurer for liquor licenses, $11,923 10; from state fund, $20,270 52; from state apportionment, $13,062 33, from supplementary tuition tax, $12,155 22; other sources, $1,684 78; total receipts, $95,935 25.

The expenditures for this department amounted to $62,473 65, leaving a balance of $33,495 60.

The tuition fund can be drawn from only for teachers' salaries, while the special fund is used for the maintenance of the schools, repairs, new buildings, furniture, etc.

Thus it will be seen the trustees have on hand $33,495 60 with which to pay teachers up to January 1, and $26,304 33 for the other expenses for the same period. From the latter amount must come the payment for the two new school buildings now under way and the equipment of the same.

Next January the county treasurer will turn over to the trustees the half yearly installment for 1897.

KANSAS POPS

Put Senator Leedy at the Head.

They Endorse the St. Louis Platform and Bryan and Watson.

ABILENE, Kan., Aug. 6.—The nomination of Senator Leedy for governor at 2 o'clock this morning left the delegates to the populist convention in a mood for quick work today and they began at 9 o'clock.

United States Senator Pfeffer opened the session with an address advocating the fusion of anti-silver forces on a basis of votes cast for all offices. The convention quickly got down to the consideration of the resolution committees' report, and without much ado the report was adopted as presented. The resolutions endorse the St. Louis platform and Bryan and Watson; they congratulate Kansas that since the populists have been in politics many good laws have been secured; condemn the republican house of representatives for failing to pass bills sent from the populist senate; demand that the officers carry out the will of the people; that the attorney general enforce the statutes limiting corporations to the business named in their charters, and that railroads shall do no other business than common carriers; condemn favoritism to shippers by railroads; favors a maximum freight law, demands restoration of convict labor; demands the reduction of public easitaries; demands that the supreme court, in justice to the people, clear its docket.

THIRTY DAY SUSPENSION

No More Trading on 'Change for a Month.

The Moore Brothers' Failure and Fears of a General Panic Are the Causes.

CHICAGO, Aug. 6.—It is reported on excellent authority that trading in the account on the Chicago stock exchange will be suspended for thirty days after the exchange shall have opened. It is also probable that the deals in future options will be limited to a week or ten days. All this has been caused by the Moore Bros' collapse. No one knows that is, no one save the special committee appointed to arrange a settlement of the Diamond Match and New York Biscuit deals of the Moore Bros' when the stock exchange will resume active business. The room traders and many others have begun to make loud complaints against what they call the "arbitrary action" of the governing board in closing the exchange. They claim it is done to protect a favored few and that it does the majority of dealers great injury. It is said the Moore Bros' and the special committee from the stock exchange will brish their labors before tomorrow night and make a statement as to the financial standing of the firm.

Summit City lodge F. and A. M. will meet tomorrow evening, and will elect a junior warden.

NOTABLE CAREER.

Death of Mrs. Amelia Hicks-Lord at New York.

Twice Married to Wealthy Merchants—She Survives Both and Leaves an Estate of $5,000,000.

NEW YORK, Aug. 6.—Mrs. Annette Hicks Lord, who was in her day one of the most notable figures in New York society, died at her residence in this city last night, aged sixty-seven years.

Mrs. Hicks-Lord was descended on her mother's side from a titled English family and was related to General Robert Schenck, once United States minister to Great Britain. Her father, Unico Peter Wilkins, married Adeline Schenck, whose family had a great deal of property on the Fishkill river. The couple went to Guiana and there Annette was born. Subsequently the Wilkins family returned to this state, making their home at Matteawon, where Annette grew to womanhood.

At twenty-five she was married to Thomas Hicks, a wealthy merchant of twice as many years as her own. Her marriage settlement included considerable property at Toledo, Ohio, and elsewhere, which, when Mr. Hicks failed a few years later, gave his wife an income sufficient for the maintenance of both until the husband died. The widow's fortune was increased by inheritances from relatives in Holland, so that she was able to entertain most lavishly, her receptions being among the most noteworthy of the period in New York.

Then the widowed Mrs. Hicks went to England and as a relative of the United States minister was presented to Queen Victoria. She set up an establishment in London, which was so celebrated in its way as had been her New York home. Admiral Alden, U. S. N., gave her the unusual distinction of taking her on board the flagship of the Mediterranean squadron to Alexandria and thence on board the frigate Wachusett to Joppa. Thence she proceeded to Jerusalem with an escort of sixty United States sailors. On the return to Alexandria the Wachusett tried to enter the port of Alexandria in the night without a pilot and had a hole knocked in her bottom.

After Mrs. Hicks had returned to America Thomas Lord, an octogenarian dry goods merchant with a fortune of $6,000,000, paid suit to her, but she refused him and went to Europe for a season. Her absence did not cool Mr. Lord's ardor, and he renewed his suit with better success. When she came back to New York in 1877, they were married.

The six children of Mr. Lord thereupon obtained a writ of de lunatico inquirendo and sought to have the marriage set aside on the ground of the mental incapacity of Mr. Lord. The couple, however, so completely secluded themselves in the wife's home in Fourteenth street that for months detectives were unable to reach them.

The fight of the younger Lords was finally abandoned. A year later Mr. Lord died, and after a proper season of mourning, his widow re-entered society, her entertainments taking on even greater magnificence than those of her earlier career. Recently her health failed and she traveled extensively. She also devoted much of her thought and money to religion. A few years ago her fortune was estimated at $3,000,000, not taking into account magnificent collections of plate, rubies and cameos.

LABOR DAY.

Big Holiday of the Craftsmen to be Held Here.

Splendid Program to be Arranged—Reduced Rates Secured on All Railroads.

Last evening a committee consisting of John Koch, G. R. Henoh, L. C. Kasten, Isidore Friend and Mrs. Gorline held a meeting for the purpose of making arrangements for a labor day celebration in this city. This committee was appointed by the Trades and Labor council, which organization has the matter officially in hand.

Labor day, a legal holiday in Indiana, and many other states, made so through the efforts of organized labor, falls upon the first Monday in September.

The committee which met last night decided to use their best efforts toward making the day in Fort Wayne a grand gala event that will attract many visitors to the city, and to result them the railroads will offer reduced fares. A speaker of national reputation will be secured, and he will be a man well posted upon the topic of labor. Athletic games and sports of various kin is will be on the program.

There will be no parade as the day's festivities will be held at Robison park.

GEORGE DUNLAP MISSING

Remaining Heirs Will Divide the Estate Without Waiting.

TERRE HAUTE, Ind., Aug. 6.—After ten years of absence, George Smith Dunlap, heir of the late Andrew Dunlap, of Sugar Creek township, cannot be found, and his share in the estate, amounting to about $25,000, is about to be confiscated by the remaining heirs. The law provides that if one is gone for five years without any information whatever as to the person's whereabouts, he may be considered as dead and his property divided to the next nearest heirs. The deceased's suit cuts off Thomas Dunlap, of this city, with but $1, but, according to an agreement reached yesterday, he will receive a full share with the rest.

Andrew Dunlap was one of the wealthiest residents of the county. Yesterday a daughter produced $12 000 in government bonds as part of the assets of the estate. The coupons had not been clipped since 1892.

TWO DROWNED!

Jimmie Hawkins and Harry Lease,

While Crossing Spy Run Stream,

Sink to Their Death Before the Eyes of Their Companions.

Details of a Shocking Accident, Whereby Two Boys Are Swept to Eternity Without Warning.

Dreadful affliction and deep sorrow was visited upon the homes of two of our respected citizens today.

Two lads, Jimmie Hawkins and Harry Lease, who left their mother's presence, full of life and boyish happiness this morning, lie dead in the morgue of Funeral Director Peltier as THE SENTINEL goes to press this afternoon.

The bereaved parents are Edward Hawkins, the well known cigarmaker, residing at the corner of Broadway and Jefferson streets, and A. L. Lease, a brakeman on the Grand Rapids and Indiana railroad, living at 101 Madison street.

The boys were cousins. Both were allured to the jail lots by the circus which has its tents pitched there and at that place they met about 9 o'clock this morning. Naturally enough, they remained together, playing about the show grounds and the vicinity of the river until noon when they started to go home by the way of Spy Run avenue.

Crossing the Clinton street bridge near the city crematory they followed the north bank of St. Mary's river to Spy run. This stream is about twenty-five feet wide and empties into the river at this point. No bridge spans it, but there has been built here what is called a "blind bridge," under water, a structure used only for wagons hauling gravel from the river bank. At this point they were joined by two Proper boys, who live on West Jefferson street.

The Hawkins and Lease lads started to cross the dangerous blind bridge and were about half way across when Hawkins slipped and fell into the water, which was fully fifteen feet deep, on account of dredging which had been going on. The boy had hardly disappeared when young Lease also fell in. The Pieper boys had remained on the bank and now stood aghast at the struggle of the poor little fellows, who it seems could not swim.

Panic stricken the Piepers ran away from the spot to seek assistance. They quickly notified the men at the electric power station, near by, and William Rockey, one of the employes, hurried to the scene of the accident, but too late, for the boys had gone down for the last time.

With great courage Rockey hastily dived for the bodies, and, although he persevered until almost exhausted, it was sometime after the accident when he secured both bodies.

The two little corpses were stretched on the bank when a SENTINEL reporter reached the scene. Jimmie Hawkins was nine years old, and the only child. Harry Lease was eight years old. Both were bright and promising lads, whose sudden fate will be cause for a widespread expression of sympathy to the parents and families, whose cup of sorrow is now filled to overflowing.

The bodies were taken to Peltier's and will be removed to the homes of the parents this evening.

Edward Hawkins, father of one of the boys, was a former employe in the Trentman cigar manufactory, but lately got out of work and went to Toledo, where he is now working. The sad news was wired to him this afternoon.

THE COURTS.

BOLT THE TICKET.

Fort Wayne Gold Democrats Hold a Meeting.

Pass Resolutions and Will Send Delegates to the Convention at Indianapolis.

Twelve democrats who are opposed to the free coinage of silver, which is one of the principles announced in the democratic national platform and the leading issue in the campaign this year, met at the law office of Perry A. Randall last night to give an expression of their sentiments regarding an independent democratic ticket.

Ex Senator J. D Sarnighausen, editor of the Staats Zeitung, one of the democratic German daily newspapers of this city, was selected as chairman of the meeting, and Samuel M. Foster was chosen secretary. After some discussion, the following resolutions were offered and unanimously adopted:

"Resolved, That it is the sense of this meeting that the integrity of the democratic party and the welfare of the whole country demands that a national convention be called at which such action may be taken as shall give expression to democratic principles and furnish to the voters candidates who shall represent these principles."

A committee was appointed to go to Indianapolis Friday, August 7, to represent the gold standard democrats of Fort Wayne in the provisional convention to be held in that city. S. M. Foster was made chairman of the Indianapolis committee and associated with him are H. C. Borghoff and John F. Robbahugh.

Among those who were present at the meeting were J. F. W. Meyer, ex-Senator Sarnighausen, Hon. S. M. Foster, P. A Randall, A. E. Hoffman, R. L. Remy, Hubert Berghoff, Charles Falk, T. W. Wilson, Judge S. R. Alden, Will Tigar, A. A. Parman. A letter of regret was received from Hon. P. S. O'Rourke, and it was stated that Hon. Charles McCulloch was also in full sympathy with the object of the meeting. Henry Berghoff was unable to be present on account of absence from the city.

Mrs. Daniel Harding sailed from Ireland yesterday on the steamer Britannica, and will arrive in New York on the 14th inst. Previous to her return here she will visit Niagara Falls, accompanied by her daughters, who went east to meet her. They will arrive in Fort Wayne about the 20th.

The Hibernian Rifles will have a prize drill at Robison park some time during next month. The company will be divided and two squads will compete for the prizes. There will be fifty movements, on the basis of ten points to each movement. The commissioned officers of the local military companies will be the judges.

Fourteen hundred feet of stone walk is now being laid around the base of the reservoir by the direction of the waterworks trustees, and upon its completion the board of public works will beautify the surroundings. The board has already built a gravel walk and done considerable other work to make the spot attractive.

A man who gave his name as Forest, reported at the police station last evening that he had been relieved of his pocketbook, containing $10 and a gold ring. His story was to the effect that he boarded a Grand Rapids and Indiana train yesterday evening at Sturgis, Mich., and a fellow took a seat with him and became very familiar.

The Fort Wayne Lithographing company, of which Wm. H. Scheimann is manager, has just added to its staff the following artists and craftsmen: George L. Miller, formerly of the engraving department of the Sherwood Lithographing company, Chicago; George Boelter, formerly of the Gugler Litho graph company, Milwaukee, W. H. Thompson, formerly of the Iowa Printing company. These gentlemen have all arrived and will make their homes here.

For This Afternoon.

FRUIT HOUSE.

The '97 Sporting club had a meeting last evening

Mr. and Mrs. Heffelfinger, of Butler, are in the city.

Misses Jennie and Nellie Lawson left today for Rome City.

J. H. King, a prominent merchant of Montpelier, is in the city today.

Mrs. Theodore Haberkorn has returned from Lake Maxinkuckee.

The McKinley club will hold a meeting at Vogley's hall tomorrow night.

Mr. and Mrs. S. R. Taylor went to Warsaw this morning to attend the musical convention.

Arthur Mease, formerly of this city, now conducts a bakery in one of the suburbs of Chicago.

Frank Mills and William Hibbens will leave shortly for northern Michigan on a fishing jaunt.

Ross Eggemann left for Adams this noon, where she will visit her aunt, Mrs. Theo. Eggemann.

Wm. T. Hass, of South Wayne avenue, is making neat improvements to his home by adding a basement.

Archie Stout, formerly of this city, is now a stenographer in the office of the Derby Cycle Co., at Jackson, Mich.

W. H. Dreier, the druggist, arrived home this morning from Rome City where he spent a week with his family.

Miss Annie Sidle, who was the guest of Misses Nellie and Jennie Lawson, of Home avenue, has gone to Van Wert.

Miss Margaret E. Stemen, of Broadway, is in very poor health at Bremen, Ohio, where she went some time ago to visit relatives.

Gottlieb Haller and D. J. Shaw have opened a meat market at No. 94 Barr street, the place formerly occupied by E. Rich & Son.

Charles Miller has resigned his position in Gerberding & Miller's drug store. It is his intention to attend business college.

H. J. Remmert is making extensive improvements in his building at 160 Calhoun street. A new iron front will be placed therein.

Miss Annie Boyles, of Miner street, who has been the guest of her brother, Lucien Boyles, in Chicago, returned home last evening.

Misses Laura and Frances Muirhead, of South Calhoun street, are visiting at Andrews. The young ladies are teachers in the public schools.

Charles S. Bash has assumed control of the Bash Packing house and, it is said, intends to reorganize the company and extend the business

Lieut. C. G. Pape, Lieut. C. Holman, Sergt. O. Engleking, Theodore Linderman, Privates F. W. Nahrwold, Fred Thiele, G. Borgman and H. Lentz are at Rome City camping.

A number of Fort Wayne people are taking treatment at Dr. Guyerson's Sylvan Lake sanitarium and among them is Frank P. Wilt's little boy, who is now receiving much benefit from the baths.

A party consisting of Dr. W. H. Myers and wife, Dr. E. J. McOscar and Dr. W. F. Schrader will go to Kendallville this evening to attend a musicale to be given at the residence of Dr. Gilbert.

A game of quoits, the first played at Robison park, came off yesterday between Ed Hartman and A. R. Hirons on one side and Oliver Hartman and Sydney Bennett on the other. Hartman and Hirons won.

John Kabisch, the Fairfield avenue barber, will leave in a few days for a short visit with his brother, Fred Kabisch and family, who are occupying a cottage at Rome City. He will be accompanied by his wife.

The Sunday school of the Evangelical society, of Portland, Ind., will run an excursion to Robison park on August 20. The excursion will start from Richmond and a large crowd is expected, as an unusually advantageous rate has been secured.

E. F. Liebman, the contractor, has just completed extensive improvements at the St. Joe hospital. An additional story, by which twenty-five more sick rooms are added, was the principal gain in the addition, and there is also a new operating room to this floor. An electric elevator is now being placed in the building. The improvements will cost $7,000.

The artesian well that will supply water for Robison park was finished yesterday. The well is 160 feet deep and is operated by electric machinery. It is the first instance in which an electric motor has been used for this purpose. The water tank holds 25,000 gallons and the water tower is 100 feet high. Robison park intends to keep in the lead in all things.

Saginaw	17	6	11	[illegible]
Jackson	17	5	12	[illegible]

Until the eighth inning yesterday it looked like a shut out for the visitors. They then bunched their hits, and assisted by errors of Lynch and Tebeau, got in five runs. Gilboy, left fielder, made things merrier than ever in the ninth by sending the ball over the fence. Fortunately for Fort Wayne no men were on bases at the time. Chris Weller umpired the game, and while he was a little off at times his decisions were plainly made without prejudice, and were satisfactory to both sides. The score was.

INNINGS.	1	2	3	4	5	6	7	8	9	R.
Fort Wayne	3	1	0	0	0	0	5	0	0	9
New Castle	0	0	0	0	0	0	0	5	1	6

Hits—Fort Wayne, 12; New Castle, 10. Errors—Fort Wayne, 4; New Castle, 3. Earned runs—Fort Wayne, 3; New Castle, 1. Two base hits—Babb, Rickert, Gilboy, Whitehill and Donovan. Home run—Gilboy. Stolen bases—Babb, Tebeau, Rickert. First base on balls—Off Carrick, 1; off Hewitt, 3. Hit by pitched ball—Carrick, 1. Struck out—By Carrick, 5; by Hewitt, 1. Wild pitch—Carrick, 1. Double plays—Hewitt and Farrell. Umpire—Weller. Time of game—2.10.

NEW PLAYERS.

Fisher and Huff, two new players, will appear in today's game. Fisher will make his bow at second base and Huff will be behind the bat. They are both said to be fine players. Fisher has been making a good record in the Western league with the Peoria club, and the Fort Wayne management has been after him for some time. The positions of the players in both clubs today are as follows:

Fort Wayne—Fisher, 2 b., Gray, c.f., Babb, s. s., Tebeau, 1 b., Rickert, l. f., Huff, c., Lynch, 3 b., King, r. f., Swain, p.

New Castle—Gilboy, l. f., Whitehill, 2 b., Farrell, s. s., Ganzel, 1 b., Sullivan, 3 b., Daniels, c. f., Donovan, c., Provine, r. f., Hickman, p.

NEW UMPIRE.

Frank S. Haller, a base ball player, arrived in the city this morning from Pittsburg, having been assigned by President Powers to umpire the balance of the present series in this city. He will umpire today's game.

OTHER INTER STATE GAMES.

SAGINAW, Mich., Aug. 6.—The locals took a well contested game from Youngstown at Union park yesterday afternoon. Youngstown played fast ball, but made several costly errors. The home team played steadily and assisted by Miller's fine work held the visitors down to two runs. Score:

INNINGS	1	2	3	4	5	6	7	8	9	R
Saginaw	0	0	1	1	0	1	0	0	0	3
Youngstown	1	0	0	1	0	0	0	0	0	2

Hits—Youngstown, 9; Saginaw, 9. Errors—Youngstown, 4; Saginaw, 1. Batteries—Miller and Northwang; Brodie and Zinram.

JACKSON, Mich., Aug. 6.—A scrappy game was played yesterday and won by Jackson with the stick. Hardesty's work at second was extraordinary. Score:

INNINGS.	1	2	3	4	5	6	7	8	9	R
Jackson	0	0	1	2	2	0	0	4	1	10
Wheeling	0	0	0	1	1	3	2	0	0	7

Hits—Jackson, 16; Wheeling, 10. Errors—Jackson, 6; Wheeling, 7. Batteries—Engle and Corcoran; Garvey and Shaw.

TOLEDO, Ohio, Aug. 6.—Ferguson thoroughly retrieved himself yesterday for Tuesday's failure and showed himself to be a wonder. Score:

INNINGS.	1	2	3	4	5	6	7	8	9	R
Toledo	0	0	0	1	2	0	0	7	0	10
Washington	0	0	0	0	0	0	0	0	0	0

Hits—Toledo, 11; Washington, 1. Errors—Toledo, 2; Washington, 3. Batteries—Ferguson and Arthur; Dinsmore and Mitchell.

NOTES.

Fort Wayne got twelve hits off of Hewitt. The boys had on their batting clothes yesterday.

Carrick was in good form and used splendid judgment at the critical times when bases were full.

The Louisvilles have lost twenty-five games by one run this season. Some justification for a hard luck story there.

Second Baseman Whitehall made a difficult stop of a hot grounder and threw to second, retiring a base runner. It was a pretty play.

Quinn caught an errorless game. His star play was throwing Gilboy, the crack base runner for the New Castle team, out at second.

There is said to be a phenomenal pitcher at Washington, Ind., by the name of Knitler. In a recent game he struck out eighteen Evansville players

The Daily Kindergarten tells about Center Fielder Gray, of the Fort Wayne team, having a brother in Harvard college for whose education he pays. As usual, wrong again. Gray has no brother at Harvard.

Frank Torreyson, ex manager of the Toledo team, is negotiating with the owners of the Saginaw team and will likely take the management of it. Torreyson is a manager from the word go, and will make something out of the tail enders.

Wheeling News: "The success of base ball statesmanship lies in keeping your mouth shut. If certain managers would take warning Polonius by giving every one their ears and no one their tongues, they would fare better financially and in divers other ways."

Manager Delsplaine, of the Wheeling team, thinks the Toledo fans are too noisy. He says there is a big difference between legitimate rooting and blackguardism. "In no other city," said he, "have I heard such blackguardism as comes from the grand stand there."

A special from New Castle says: "New Castle will protest against Ferguson, whom Toledo is claiming, from being in any game with the latter club. Ferguson is claimed by New Castle. He was formerly a pitcher in the Pacific Slope league, which went under recently, and as soon as it was known that league would not last the local management secured from Ferguson an acceptance of terms and an agreement from him to come to this city. He was expected to report at either Jackson or Saginaw, and if he puts in an appearance at Toledo there will be a protest entered."
